HTS

HIGHER TECHNOLOGY SOLUTIONS

TAKING YOUR CAMPUS

TO NEW HEIGHTS

WITH HCM AND FINANCE

Higher Technology Solutions' consulting services are expanding to include HCM and Finance.

HTS was founded in 2001 to support the implementation of the Oracle Campus Solutions application suite for Higher Education Institutions across the U.S. and Canada. As an Oracle Certified Partner, HTS has over ten years of success in the Higher Education market. Our success and the success of our clients has shown that strategic consulting will maximize implementation effectiveness and provide the highest level of client satisfaction.

HTS has now launched an HCM and Finance practice, led by a top expert in the Higher Education market, as part of our commitment to increasing value for our clients. Visit booth #420 to learn how HTS can help you with your HCM and Finance needs.

HTS continues to offer exceptional consulting and training services in the following areas:

▶ PeopleSoft Campus Solutions

▶ PeopleSoft CRM

▶ CRM On Demand

▶ OnCall Services

▶ Campus Complete Services

▶ Continuing Education Registration Solutions

Higher Education User Group (HEUG)

Welcome to the 15th annual Alliance conference in Nashville, Tennessee, USA! The Higher Education User Group (HEUG), the Public Sector User Group (PSUG), and the Federal User Network (FUN) have once again joined together to offer one of the best conferences of the year. We would also like to welcome representatives from our peer user groups the Oracle Development Tools User Group (ODTUG) and Oracle HCM User Group (OHUG). During this week of collaboration, we will have unparalleled opportunities to network with our peers, to learn from our global community of practice, and to teach each other new things. This year's Alliance conference offers over 450 presentations by members and exhibitors, keynotes by industry insiders, community meetings, an executive forum, receptions, and social events.

We want to thank each individual conference attendee for joining us this week and their institutions for supporting their attendance. We would like to especially thank those attendees who will be presenters this week. As always, we appreciate Oracle's continued support for the HEUG and the Alliance conference. Our relationships with Oracle executives and product strategists are unique and continue to be one of our greatest strengths. The perennial success of the Alliance conference is a demonstration of the benefits of those relationships. Of course we could not offer this conference without the constant support of our vendor partners and exhibitors. Please take some time this week to visit the exhibition hall and take advantage of our vendor partners' offerings.

The HEUG continues to play a leading role in the Oracle user group community. The HEUG is the largest industry-specific Oracle user group in the world, representing over 25,000 individual users from almost 900 campuses in 33 countries on 6 continents. By combining our efforts with our peer user groups, we provide a unified voice for Oracle's public sector customers. Our advisory group community, including more than 175 representatives from over 100 member institutions continues to fulfill our mission of advocacy for our members.

The HEUG has increased its educational offerings substantially over the past year, including our popular education series delivered through webinars and several new regional meetings in the US and abroad. This year saw the establishment of six very successful regional conferences here in the Unites States. These conferences, along with Alliance and our regional events outside of the US, have enabled an increased level of interaction throughout our community.

Our institutional membership has continued to grow. Institutions have continued to become paid members of the HEUG as they see the benefits of HEUG membership, including reduced Alliance conference registration fees, free webinars, and the ability to join advisory groups. We see membership rates flourishing in every region around the world. The HEUG has truly become a global community of practice.

This conference will be the official start to my second term as president of the HEUG. I look forward to continuing to serve the HEUG, leading it to continued success, and working hard to ensure its long-term organizational health. We are fortunate to have a tremendous group of dedicated volunteers and staff leading this organization. I would like to personally thank you all for your support, your hard work, and your enthusiasm.

Have a great week!

Ted Simpson
President, Higher Education User Group

Public Sector User Group (PSUG)

The Public Sector User Group Board of Directors welcomes you to the 2012 Alliance Conference! This conference provides us with a wonderful opportunity to learn and network with colleagues from the HEUG (Higher Education User Group), FUN (Federal Users' Network) and PSUG. This partnership of collaboration is ongoing throughout the year, and provides the Public Sector with a consolidated voice with which we address Oracle regarding product support, strategic development, application usage, training, and maintenance costs.

Building on the success of the past Alliance Conferences, we have fifteen sessions offered in the Public Sector Track. The Board and Track committees have worked closely with Oracle to develop the Public Sector Track presentations in order to assure that referenced business processes and application builds reflect PSUG usage.

This conference provides opportunities to network, learn, and enhance your organizations' efficiency and your PeopleSoft/Oracle ownership experience in a very cost effective way. The PSUG Board would like to thank those of you who have become active in the Public Sector User Group this past year and encourage all of you to remain or become involved in the upcoming year. Our website address is www.psugonline.org

If you need any assistance during the conference, Carol Scurlock-Garcia is your Track Chair and Sandy Strickland is your Assistant Track Chair. They, or any other of the PSUG Board members, will be happy to help you with whatever you may need.

To enhance your conference experience, please join us for the following PSUG related networking opportunities:

- PSUG Community Session - Sunday, March 18th from 3:30 – 4:30 (session 30748)

- PSUG Birds of a Feather – Tuesday, March 20th from 9:30 – 10:30 (session 30159)

- PSUG Annual Meeting – Wednesday, March 21st from 8:00 – 9:00 (session 30764)

Hope you have a great conference and I look forward to your continued involvement during the upcoming year!

Connie Guerrero
President, Public Sector User Group

Federal Users Network (FUN)

Welcome to the 2012 Alliance conference! The Federal Users Network (FUN) is proud to partner with the Higher Education Users Group (HEUG) and the Public *Sector User Group (PSUG) as we participate in the festivities. As in the past, we have a Federal Users Network Track at this year's conference. Fun members share experience and solutions amongst* their respective agencies. We come together as one voice with Oracle/PeopleSoft about new development, upgrades and fixes. Members of the Federal Users Network include staff from a variety of federal agencies with a wide variety of missions, and we are always looking to increase our strength by adding new members. We are glad that you have taken this opportunity to participate at the 2012 Alliance Conference in Nashville. Be sure to come to the FUN sessions!

Check out our website at www.federalusersnetwork.com and join the FUN.

Terry Hannan,
Chair, Federal Users Network

SPECIAL EVENTS

Sunday, March 18th

5KFun Run and 1.5 Mile Walk - *Sponsored by ioConsulting.*
The fourth year of our annual event for the Alliance Conference! Get out and get healthy running and walking a course around the Opryland area.
6:15 am – 9:00 am, Check-in Delta Lobby A

Golf Tournament
This team event will be held on the beautiful Gaylord Springs Golf Course with lunch provided by Nelnet Business Solutions. 6:45 am – 3:00 pm (shot gun start at 8:00 am). Transportation to the course will be provided. **Please gather in the Magnolia Lobby of the Gaylord Opryland Hotel for a 6:45 am departure.**

Opening Night Reception
Nashville is known as the 'Music City' and has a rich heritage across several different music genres. Alliance 2012 is going to feature some of that rich heritage and add some excitement of our own. We invite you to a high-energy Opening Session and Reception filled with toe-tapping music. We will start the evening with a brief welcome that will get you prepared and motivated for the days ahead. Then our special guest band will lead you with their Bluegrass flavored tunes into our reception hall filled with local culinary delights and drinks. You will spend the evening spotting Shania Twain and Garth Brooks (or is it?) while witnessing interactive feats of magic
Ryman Exhibit Hall C, 6:45 pm- 9:30 pm

Vendor Fair
Over 80+ Exhibitors will once again be attending our vendor fair, so you can find great third party solutions and services.
Ryman Exhibit Hall C, Sunday – Tuesday. See above for Exhibit Hall Hours.

Monday, March 19th

Early AM Yoga Sessions
Start your day with the perfect practice to awaken, energize, and radiate. Our early morning yoga instructors will guide you through a series of yoga postures and deep breathing to bring energy into the body and calm presence into the mind. Additional fee, pre-registration required.
6:00 am – 7:00 am, Tennessee Ballroom A (and Tuesday, 6:00 am – 7:00 am)

Executive Forum
The Executive Forum is a one-day event for senior executives focused on the key issues at the intersection of business value, strategic investment, and enterprise technology at HEUG member institutions. Due to the high demand for this event, attendance at the Forum is by invitation only and is limited to 125 participants.
8:00 am – 5:00 pm, reception following the day's sessions. Hermitage Ballroom.

Community Service Projects

- **Book'em** believes that given an early start, children learn not just to read, but also to love reading. You can help the children of Nashville learn to love reading by bringing in books to donate to Book'em. **Monday and Tuesday between 7:30 am-12:30 pm** stop by and drop off your books (Amazon and book store gift cards also accepted) at the Book'em table. **http://www.bookem-kids.org**

- **Retrieving Independence** – Come meet some of the dogs from this Tennessee-based organization and learn more about the great work they do. **Monday, 9 am-11 am and 2:30 pm - 4:30 pm. Tuesday, 9 am – 11 am. http://www. riassistancedogs.org**

- **Safe Haven Family Shelter** – Drop off your donations (gift card donations also accepted - Target or Wal-Mart only) for this Nashville shelter that helps support and house 11 families each year. A list of requested donations is on the website. **Visit the Safe Haven table, Monday and Tuesday 7:30 am - 12:30 pm. http://safehaven.org**

Tuesday, March 20th

Tuesday Keynote Speaker
Dr. John Medina, a NY Times best-selling author *(Brain Rules: 12 Principles for Surviving and Thriving at Work, Home, and School)*, has spent most of his professional life as a private research consultant, working primarily in the biotechnology and pharmaceutical industries on research related to mental health. Medina holds joint affiliate faculty appointments at the University of Washington School of Medicine, in its Department of Bioengineering, and at Seattle Pacific University, where he is the director of the Brain Center for Applied Learning Research. Dr. Medina will hold a book signing immediately after his presentation.
8:00 am – 9:00 am Delta Ballroom

Closing Night Celebration - *Sponsored by Smart ERP*
After two days of information overload, you and your brain need some time to relax, recoup, and enjoy!

To start off Alliance 2012's final night, Wayne Cotter will get the good vibes going with his smash hit comedy performance. A favorite on talk shows and a regular on The Tonight Show with Jay Leno, Cotter has received a wide range of awards including "Best Standup Comedian" in the American Comedy Awards. Following Cotter's laugh-inducing performance, head down to the Delta Island Party and be transported into an adult playground, with a beer garden and delicious food included! You can dance the night away to 80's cover band, Bueller, or rock-out to your own song on karaoke, or you can spend the night trying your hand at casino games like blackjack, roulette and craps or you can head back to your childhood and play some arcade games, including multiple simulators!
Delta Ballroom/Delta Island 6:15 pm – 11:00 pm

PAGs/TAG Complete Another Successful Year!

"The HEUG advisory groups have completed another extremely productive year!" Paul Czarapata reported at the PAG/TAG Summit prior to the start of the Alliance 2012 Conference. Paul Czarapata (Kentucky Community & Technical College System) is HEUG's Vice President for Products. The Summit is the annual two-day event for the Product and Technical Advisory Groups (PAG/TAG) which precedes the Alliance Conference. The fifteen groups represent most of the Oracle applications used in Higher Education. Participants meet face-to-face with Oracle product strategists and developers about the future direction of Oracle's applications as well as current issues. Using results from Issue Tracker, Surveys, and Polls, they work hard to represent the needs of Higher Education all over the world and help Oracle understand those issues that impact Higher Education.

We encourage all HEUG members to participate in HEUG Online Forums, to be active contributors to the Issue Tracker postings and discussions, and to complete the Polls and Surveys that are periodically posted. We also hope that you will consider nominating yourself for a PAG or TAG suitable to your interest and skill set. Nominations are taken each fall for terms beginning in March. Notice of open nominations is announced via HEUG Online usually in September and through the various Forums.

Want to find out about this year with the PAGs/TAG? Visit the VP for Products blog on HEUG Online (www.heug.org)!

MORNING WORKSHOPS

March 18, 2012 (09:00 AM - 11:30 AM)

Workshop	Presenter(s)	Room
From Bolt-On to PERC: Why Post Enrollment Requirements Checking Works for University of Colorado	Rana Silver University of Colorado	Delta Island F

NEW THIS YEAR

Stop and Share Sessions – Ryman Exhibit Hall B4-5

We have added a new idea exchange event to this year's program called Stop and Share. This is how these sessions will work:

- There are three times in the conference schedule for 'Stop and Share' sessions.

- During each time, there will be up to fifteen sessions, each on a particular topic.

- Topics will be determined by attendees during onsite registration/pickup. An attendee who has an interest in a topic will list the topic and list themself as the convener/moderator of the session (the initiator of the session must agree to be the convener/moderator).

- A bulletin board will be placed at the entrance to the 'Stop and Share' room with a grid that cross-sections the room at the time. Each topic will be assigned a number that corresponds to an area of the room.

- Anyone interested in the topic shows up at the time and location as shown on the grid to contribute/learn about the topic listed.

. . . .

SESSION KEY

Time Code	Date	Session Time
S1	Sunday, March 18th	9:00 am – 11:30 am
S2	Sunday, March 18	12:30 pm – 3:00 pm
S3	Sunday, March 18	3:30 pm – 4:30 pm
S4	Sunday, March 18	4:30 pm – 5:45 pm

Time Code	Date	Session Time
M1	Monday, March 19	8:00 am – 9:00 am
M2	Monday, March 19	9:15 am – 10:15 am
M3	Monday, March 19	10:45 am – 11:45 am
M4	Monday, March 19	12:45 pm – 1:45 pm
M5	Monday, March 19	3:15 pm – 4:15 pm
M6	Monday, March 19	4:30 pm – 5:30 pm

Time Code	Date	Session Time
T1	Tuesday, March 20	8:00 am – 9:00 am
T2	Tuesday, March 20	9:30 am – 10:30 am
T3	Tuesday, March 20	10:45 am – 11:45 am
T4	Tuesday, March 20	1:15 pm – 2:15 pm
T5	Tuesday, March 20	2:30 pm – 3:30 pm
T6	Tuesday, March 20	3:45 pm – 4:45 pm

Time Code	Date	Session Time
W1	Wednesday, March 21	8:00 am – 9:00 am
W2	Wednesday, March 21	9:15 am – 10:15 am
W3	Wednesday, March 21	10:30 am – 11:30 am

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
Sunday, March 18 03:30 PM–04:30 PM					
S3	30735	**Academic Advising Community Session**	**Academic Advising - Panel Discussion**	N/A	**Canal A**

This is an opportunity to network with other individuals who have an interest in Academic Advising, as well as get an overview of the conference and sessions being presented in this track over the next 3 days.
Larry Hill, Indiana University

S3	30736	**Admissions Community Session**	**Admissions - Panel Discussion**	N/A	**Washington B**

This is an opportunity to network with other individuals who have an interest in Admissions, as well as get an overview of the conference and sessions being presented in this track over the next 3 days.
Ryan Chreist, University of Colorado

S3	30737	**Budgeting and Planning Community Session**	**Budgeting and Planning - Panel Discussion**	N/A	**Presidential Chamber A**

This is an opportunity to network with other individuals who have an interest in Budgeting and Planning, as well as get an overview of the conference and sessions being presented in this track over the next 3 days.
Francesca Seidita, University of Pennsylvania

S3	30738	**Campus Community Community Session**	**Campus Community - Panel Discussion**	N/A	**Canal E**

This is an opportunity to network with other individuals who have an interest in Campus Community, as well as get an overview of the conference and sessions being presented in this track over the next 3 days.
Jeanne Horvath, University of Michigan

S3	30739	**Contributor Relations Community Session**	**Contributor Relations - Panel Discussion**	N/A	**Presidential Chamber B**

This is an opportunity to network with other individuals who have an interest in Contributor Relations, as well as get an overview of the conference and sessions being presented in this track over the next 3 days.
Tilly Garnett, Cornell University

S3	30740	**CRM Community Session**	**CRM - Panel Discussion**	N/A	**Jackson EF**

This is an opportunity to network with other individuals who have an interest in CRM, as well as get an overview of the conference and sessions being presented in this track over the next 3 days.
Dara M. Newton, The University of Texas at Arlington

S3	30029	**FA Meet and Greet**	**Financial Aid - Mix and Mingle**	N/A	**Tennessee DE**

Meet fellow Financial Aid professionals as well as your 2012 PAG members.
Camille Mongelli Swarts, Boise State University

S3	30742	**General Ledger Community Session**	**General Ledger - Panel Discussion**	N/A	**Governor's D**

This is an opportunity to network with other individuals who have an interest in General Ledger, as well as get an overview of the conference and sessions being presented in this track over the next 3 days.
Cameron McClurg, Fred Hutchinson Cancer Research Center

S3	30743	**Grants, Contracts and Billing Community Session**	**Grants, Contracts and Billing - Panel Discussion**	N/A	**Bayou A**

This is an opportunity to network with other individuals who have an interest in Grants, Contracts and Billing, as well as get an overview of the conference and sessions being presented in this track over the next 3 days. Members of the Grants, Contracts, and Billing PAG will be present.
Cathy Thompson, University of Florida

S3	30744	**HRMS Community Session**	**HRMS - Panel Discussion**	N/A	**Tennessee C**

This is an opportunity to network with other individuals who have an interest in HRMS, as well as get an overview of the conference and sessions being presented in this track over the next 3 days.
Peter de Andrade, Brandeis University

S3	30020	**Oracle e-Business Suite - Community Session**	**Oracle EBS - Mix and Mingle**	N/A	**Bayou D**

Come and meet members of the e-Business Suite Community!
Matt Blandford, Liverpool John Moores University

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
S3	30746	**Procurement to Pay Community Session**	**Procurement to Pay - Panel Discussion**	N/A	Bayou C

This is an opportunity to network with other individuals who have an interest in Procurement to Pay, as well as get an overview of the conference and sessions being presented in this track over the next 3 days.
Sharon Loosman, North Carolina State University

| S3 | 30747 | **Project Management & Life Cycle Community Session** | **Project Management & Life Cycle - Panel Discussion** | N/A | Bayou B |

This is an opportunity to network with other individuals who have an interest in Project Management and Life Cycle, as well as get an overview of the conference and sessions being presented in this track over the next 3 days.
Robin Mullinix, University System of Georgia

| S3 | 30748 | **Public Sector Community Session** | **Public Sector - Panel Discussion** | N/A | Governor's A |

This is an opportunity for Public Sector personnel to network with other individuals from other cities, counties, states, K-12, and special governmental authorities. For new members, learn how the PSUG community can be a real asset to you and your organization - - not just at this conference, but in your everyday work life. In addition, come and get an overview of the conference and sessions being presented in this track over the next 3 days.
Carol Scurlock-Garcia, City of Albuquerque

| S3 | 30749 | **Reporting and Business Intelligence Community Session** | **Reporting and Business Intelligence - Panel Discussion** | N/A | Lincoln CDE |

This is an opportunity to network with other individuals who have an interest in Reporting and Business Intelligence, as well as get an overview of the conference and sessions being presented in this track over the next 3 days.
Jim Phillips, Kentucky Comm. & Tech. College Sys

| S3 | 30751 | **Student Financials Community Session** | **Student Financials - Panel Discussion** | N/A | Bayou E |

This is an opportunity to network with other individuals who have an interest in Student Financials, as well as get an overview of the conference and sessions being presented in this track over the next 3 days.
Bradley Stene, Northwestern University

| S3 | 30752 | **Student Records Community Session** | **Student Records - Panel Discussion** | N/A | Governor's C |

This is an opportunity to network with other individuals who have an interest in Student Records, as well as get an overview of the conference and sessions being presented in this track over the next 3 days.
Carla L Boyd, Indiana University

| S3 | 30753 | **Technical Community Session** | **Technical - Panel Discussion** | N/A | Governor's B |

This is an opportunity to network with other individuals who have an interest in Technical, Security and Audit related topics. During this session, you will have an opportunity to meet Technical Advisory Group (TAG) members, get an overview of conference sessions and get an update on TAG related activities.
David Sexton, University of Utah

| S3 | 30273 | **Training and End User Support Community Session** | **Training & End User Support - Mix and Mingle** | N/A | Jackson AB |

Join your peers for some casual conversation and networking before the conference officially kicks off. Meet some of the presenters for our track and exchange questions, answers, and ideas.
Karen Jennings, University of Arkansas

Monday, March 19 08:00 AM–09:00 AM

| M1 | 30241 | **Campus Solutions: The Roadmap Update** | **Special Sessions - Oracle Vision** | PS 9.0 | Delta Ballroom |

Join Campus Solutions Strategy and Development as we review the benefits of what we've delivered over the past year and take a look at what we're working on for the near future.
Susan Beidler, Oracle
Andy Wood, Oracle

M1	30469	**Oracle Strategy for CRM in Higher Education**	**Special Sessions - Oracle Vision**	**N/A**	**Presidential South**

Come to this session to learn about Oracle's strategy for the use of CRM in Higher Education.
Gary Allen, Oracle
Steve Morgan, Oracle
Gary Caunitis, Oracle

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
M1	30185	**Oracle's Enterprise Performance Management and Business Intelligence Strategy**	**Special Sessions - Oracle Vision**	**Hyp 11.x**	**Tennessee CDE**

This session covers Oracle's Enterprise Performance Management and Business Intelligence solutions for higher education, as well as the strategy and roadmap for these solutions.
John O'Rourke, Oracle

Monday, March 19 09:15 AM–10:15 AM

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
M2	30373	**How to get the most out of your Academic Advisement Reports**	**Academic Advising - Tips and Tricks**	**PS 9.0**	**Ryman Studio JK**

This presentation will cover reviewing the basics on how to create Academic Advisement reports and the associated data for specific populations, identifying the types of data available after the reports have been run, and creating queries that will pull specific information from the report results data.
Chuck Studler, Oracle

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
M2	30022	**Super Automated Admission Processing**	**Admissions - Case Study**	**PS 9.0**	**Ryman Ballroom EF**

This session includes a demonstration of a bolt-on customization that automates the undergraduate application evaluation process, including freshman index generation, auto admissions, honors admission, merit based aid prediction and 3C assignment.
Brad Radtke, University of Arizona
Nikolas Hodge, University of Arizona

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
M2	30335	**Campus Community Update 2012**	**Campus Community - Oracle Application**	**PS 9.0**	**Washington B**

Join Campus Solutions Strategy and Development as we review highlights of the past year that impact Campus Community and share our plans for the future. This session will provide overviews to new regulatory/legislative changes as well as enhancements rolled out in Additional Features since the last conference and planned for 2012.
Marjolaine Fontaine, Oracle
Susan Beidler, Oracle
Katherine Uscinski, Oracle
Nigel Woods, Oracle

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
M2	30002	**Streamlined Gift Processing**	**Contributor Relations - Case Study**	**PS 9.0**	**Lincoln B**

Using PeopleTools, Penn has created gift screens in CR that folks in the field can use to transmit gifts. The Central Gifts unit reviews and approves the electronic materials in batch eliminating redundant keystroking.
Anne Marie Del Rossi, University of Pennsylvania

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
M2	30244	**CRM PAG Panel Discussion/Birds of a Feather**	**CRM - Mix and Mingle**	**N/A**	**Canal B**

This session will serve to introduce the CRM PAG to the community and allow for an open discussion of CRM experiences, issues and general conversation regarding the CRM product.
Dara M. Newton, The University of Texas at Arlington

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
M2	30358	**Customizing SAP Libraries**	**Financial Aid - Oracle Application**	**PS 9.0**	**Ryman Ballroom BC**

Discuss delivered SAP Flow, how to customize SAP libraries, design considerations, and examples.
Karen Kilps, University of Wisconsin - Milwaukee

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
M2	30016	**Starting Out the Year Right with Aid Year Rollover**	**Financial Aid - Tips and Tricks**	PS 9.0	**Ryman Studio ABC**

Aid year rollover sets the tone for the rest of the year, but is fraught with things to forget. This session will build on 7 years experience in assisting eleven schools with remembering to do the things that need to get done at the beginning of a new aid year.
Dennis Junk, North Dakota University System

M2	30772	**SJSU Case Study: Why our content management solution was adopted campus-wide**	**General Interest - Vendor**	N/A	**Jackson F**

SJSU was challenged to find a content management solution to replace several siloed departmental systems. They now have one content infrastructure that extends across campus. Find out how they did it.
Peter Deutsch, San Jose State University
Colette Horner, San Jose State University

M2	30689	**Application Support - Staying Current and Keeping Customers Happy**	**General Interest - Case Study**	PS 9.1	**Ryman Ballroom A**

This case study presentation will detail how DePaul University's I.S. application support teams are structured to manage the constant flow of support cases, minor enhancements, project requests, and keep up with PeopleSoft application and tools maintenance cycles and upgrades.
John Amato, DePaul University

M2	30280	**Synch or Swim: Integrating separate instances of Campus Solutions and HCM**	**General Interest - Tips and Tricks**	PS 9.0	**Ryman Ballroom D**

UT Southwestern implemented a bi-directional integration solution of person data between CS and HCM environments. Come hear how they implemented the solution, developed reconciliations and lessons learned since going live.
Tina Sutherland, University of Texas Southwestern Medical Center
David Kolodziejski, Huron Consulting Group

M2	30481	**Effective Application Management for PeopleSoft**	**General Interest - Vendor**	N/A	**Ryman Studio HI**

This session addresses the challenges PeopleSoft customers face maintaining their applications and discusses best practices and customer experiences in implementing an Application Management solution.
Dan Maude, Beacon Application Services Corporation

M2	30044	**PeopleSoft Financial Management Solutions - Best Practices for Your Organization**	**General Ledger - Oracle Application**	PS 9.1	**Jackson D**

What best practices are higher-ed and state/local organizations going to? Can the teaching institutions learn from the commercial world in areas like shared services, consolidation and standardization? Attend this session and learn what your membership has shared with the PeopleSoft team and let us share with you how your current PeopleSoft Financial Management Solutions support best practices across the core business processes of procure to pay, credit to cash and financial control and reporting. Join us and learn how PeopleSoft supports consolidation, standardization, integrated performance management to name but a few.
Amira Morcos, Oracle

M2	30310	**Behind the Scenes in Commitment Control 9.1**	**General Ledger - Tips and Tricks**	PS 9.1	**Lincoln CDE**

A functional overview of budget checking in PeopleSoft Financials version 9.1, designed for subject matter experts who want a better understanding of what happens when they budget check transactions.
Nora Loyd, Florida State University

M2	30169	**Milestone Notifications; We Like It, We Love It, We Want Some More Of It!**	**Grants, Contracts and Billing - Oracle Application**	PS 9.0	**Presidential Chamber B**

Overview of how we use the delivered Milestone notifications throughout campus.
Tamara Franklin, University of Oklahoma Health Sciences Center
Janetta Tesch, University of Oklahoma Health Sciences Center

M2	30081	**Managing and Monitoring Savings Plans Limits Implementation**	**HRMS - Tips and Tricks**	PS 9.0	**Jackson A**

Kansas State University implemented automated Savings Plan Management in 2011 for 403(b) and 457 plans. Learn about challenges faced and solutions utilized.
Jennifer Gehrt, Kansas State University

M2	30186	**Eliminating Paper - One Transaction Type at a Time!**	**HRMS - Innovations**	PS 9.0	**Lincoln A**

An overview of Department Budget Earnings and Additional Pay Workflow projects which allows departments to create and approve transactions real time. This includes project phases, challenges, successes and system demonstration of online funding changes and additional pay transactions using workflow approvals.
Valerie VanHaaften, University of Michigan
Sherri Hermansen, University of Michigan

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
M2	30021	**Oracle eBusiness Suite - Birds of a feather**	**Oracle EBS - Panel Discussion**	N/A	**Ryman Studio FG**

This meeting is intended for all E-Business Suite attendees at Alliance '12. We will be sharing information on product enhancements, support options, experiences upgrading to R12, and details on the EBS PAG for those who do not currently belong.
Michelle Lin, California Institute of Technology
Todd Harrison, Imperial College London

| M2 | 30448 | **Travel and Expense from Paper to PeopleSoft** | **Procurement to Pay - Case Study** | PS 9.0 | **Presidential Boardroom A** |

CWRU has been managing its travel and expenses through paper processes and a basic PeopleSoft customization. This session looks at the change management process that we followed to implement the Travel and Expense module.
David Elliott, Case Western Reserve University

| M2 | 30060 | **PeopleSoft Invoice to Pay: A Roadmap Focused on Productivity and Visibility** | **Procurement to Pay - Oracle Vision** | PS 9.1 | **Presidential Chamber A** |

Come to this session to hear the value of the roadmap for PeopleSoft Invoice to Pay business process. This session will focus on feature pack enhancements to PeopleSoft Payables and eSettlements. The features discussed will focus on improving controls through automation, with enhancements to approval workflow and attachments. The session will also focus on supporting operational efficiencies with features like the FMS Autopilot. This session will also preview roadmap candidates and will focus on improving productivity through the new PeopleSoft work paradigm, the one stop shop, facilitating supplier relationships with improved visibility through supplier visualization and more.
Frederic Portal, Oracle

| M2 | 30013 | **Setting a Course for Remediating and Moving Forward an Existing PeopleSoft Implementation** | **Public Sector - Case Study** | PS 9.0 | **Jackson B** |

Developing a strategic plan and roadmap for remediating a sub-optimal PeopleSoft FIN and HRM implementation.
Chris Daniel, City of Albuquerque

| M2 | 30210 | **Surviving Open Enrollment: The tale of how the State of Tennessee processed OE for 300,000 members** | **Public Sector - Tips and Tricks** | PS 8.9 | **Jackson E** |

In the fall of 2010, the State of Tennessee redesigned all of its benefit options. This forced every member to re-enroll during the Open Enrollment period. By utilizing Employee Self Service and the Benefits Administration module, the State was able to accomplish this task on time.
Kelly Thompson, State of Tennessee
Melissa Apple, State of Tennessee

| M2 | 30405 | **Data Partitioning and Security using Oracle Virtual Private Database Row Level Security** | **Reporting and Business Intelligence - Case Study** | EBS 11.5.10 | **Canal D** |

The session presentation will focus on Rutgers' approach within its data warehouse, to limit user access to only data that is relevant for that user. The approach utilizes Oracle's row level security (RLS) to secure and simplify data access. It will be illustrated that RLS in combination with namespaces and triggers may be employed to partition data based upon specific columns and combinations of columns.
Michael Hennessy, Rutgers, The State University of New Jersey

| M2 | 30113 | **It's the Data Warehouse's Fault - Or Is It?** | **Reporting and Business Intelligence - Case Study** | N/A | **Canal E** |

The Data Warehouse and the BI tools used to support the Warehouse have made data much more accessible to our campus community. However, in doing so, the new and critical question becomes who has the responsibility for insuring that the data are properly used and disseminated? The Data Warehouse group can insure that only users with proper security can access the data, but once the data have been downloaded or otherwise disseminated to individuals or to departments, that tight level of control may be threatened. This issue has always existed, but now, since it is much easier to access and disseminate the data, new questions of security arise. How much of the responsibility for educating our users to understand the proper care and security of the data accessed from the Warehouse lies with the Warehouse team? Are there university guidelines or policies that exist to address this issue? We'll explore some of the sensitive data stored in the Warehouse, what we can do to educate users and mitigate risk, and discuss what responsibilities should and should not lie with the Warehouse team after the data have been extracted.
Suzanne Coletti, Princeton University

| M2 | 30645 | **Mitigating Security Threats in your Oracle Application Environment** | **Security and Audit - Oracle Application** | PS 9.1 | **Canal A** |

Robert Armstrong, Oracle

| M2 | 30601 | **Billing - the Grand Ole Opry of Processing** | **Student Financials - Tips and Tricks** | PS 8.9 | **Ryman Studio L** |

Review of how the University of Minnesota handles student billing for 4 separate institutions, using both delivered and customized processing. This session will review bill processing from setup to delivery.
Joli Roehl, University of Minnesota
Jack Kimmes, University of Minnesota

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
M2	30049	**Collections Module made easy to process students in an efficient and effective manner!**	**Student Financials - Oracle Application**	**PS 9.0**	**Ryman Studio MNO**

Use the delivered collections module and add small modification to simplify the process for the user base community.
Angela O'Leary, North Dakota University System

| M2 | 30018 | **Control and Printing of Degree Diplomas/Certificates from Campus Solutions** | **Student Records - Case Study** | **PS 9.0** | **Ryman Studio DE** |

Why study for 3, 4 or even 6 years when you can simply steal or fake a certificate! Control the printing of Degree Certificates from within CS. Monitor the progress of degrees awarded and the authorization, printing and checking of certificates.
Peter Dawes, University of Cape Town

| M2 | 30003 | **The Perks of Using PERC! (Post Enrollment Requisite Checking)** | **Student Records - Tips and Tricks** | **PS 9.0** | **Ryman Studio PQR** |

Come see how DePaul University was able to abandon the spreadsheets, manual checks and one-off emails to better manage Post-Enrollment Requisites!
Sara Brennan, DePaul University

| M2 | 30463 | **PeopleTools for the rookie : learning the tools to provide great support** | **Technical - Tips and Tricks** | **PS 9.0** | **Bayou A** |

An overview of the PeopleSoft application and toolset told from the perspective of a functional user turned technical support person.
Tim Goodfellow, George Fox University

| M2 | 30249 | **A Customizable, Multi-Campus, Self Service Dashboard** | **Technical - Innovations** | **PS 9.0** | **Bayou B** |

A customizable Iscript based self service dashboard that provides easy access to delivered Campus Solutions pages for students, faculty, applicants, and staff.
Geoff Putney, University of Nebraska
William Barrera, University of Nebraska

| M2 | 30287 | **PeopleSoft Success: Best Practices for Using PeopleSoft Test Framework** | **Technical - Tips and Tricks** | **N/A** | **Bayou C** |

PeopleSoft Success: Best Practices for Using PeopleSoft Test Framework
Mike Krajicek, Oracle

| M2 | 30102 | **CS – HCM Split from the Institutional Perspective: A Panel Discussion** | **Technical - Panel Discussion** | **PS 9.0** | **Bayou D** |

By now, we have all heard that the CS – HCM Split is coming, but live implementations are few and far between. During this informative session, we will have panelists from the higher education community share their experiences, issues encountered and lessons learned. Also, we will have the panelists share the effort level and resources required to implement the split at their institution. The panelists will represent colleges and universities that have either already implemented a split environment, or are in the process of QA testing the split.
Roger Lurie, Arizona State University

| M2 | 30083 | **PeopleSoft Integration Broker AAA: Administration, Advanced troubleshooting and A bit of Performance** | **Technical - Tips and Tricks** | **N/A** | **Bayou E** |

This session will show you how to configure, administer monitor and better troubleshoot your PeopleSoft Integration Broker system as well as provide advanced troubleshooting and performance tips & techniques.
Andrew Cesario, Oracle

| M2 | 30507 | **Boot Scootin' Boogie ~ The Trainer's Line Dance** | **Training & End User Support - Tips and Tricks** | **PS 9.0** | **Canal C** |

Are you new to the world of PeopleSoft training? Not sure about how to create training materials with a limited budget? This session will provide participants with ideas on how to get started developing training materials and preparing for a training session. The session will discuss the strategies and materials that have been used successfully at the University at Albany and things you can easily do to make things less difficult for teaching and learning. The "dance" won't seem so difficult once it's broken down into smaller steps.
Liz Medvetz, University at Albany

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM

Monday, March 19   10:45 AM–11:45 AM

M3 · 30564 · Can You Code That? Using Delivered Academic Advisement Functionality to Code Difficult Requirements — Academic Advising - Tips and Tricks — PS 9.0 — Ryman Ballroom D

During its implementation of the academic advisement report in PeopleSoft, the University of North Carolina at Chapel Hill encountered curriculum requirements that presented coding challenges. The process of coding these requirements led the degree audit team to use some of the more advanced features and functions available in the academic advisement configuration.

This presentation will focus on UNC-CH's use of recall interpretation and override standard set logic in its implementation of complex requirements. This session will also cover how UNC-CH uses the plans appended functions in requirement groups between primary and secondary major codes so only one set of requirement group(s) is needed for a given major.
Stephen Katsaounis, University of North Carolina at Chapel Hill

M3 · 30329 · University of Glasgow's On-line Application System and the Wizardry of AAWS — Admissions - Case Study — PS 9.0 — Ryman Ballroom EF

This session is intended to provide an insight into how the University of Glasgow created its on-line form using AAWS functionality and will take attendees through the required stages which Glasgow's applicants must take to ensure admission.
Michael Arthur, University of Glasgow
James Brown, University of Glasgow

M3 · 30033 · PeopleSoft EPM Roadmap - 9.1 Overview & Sneak Peak at Post 9.1 — Budgeting and Planning - Oracle Vision — PS 9.1 — Lincoln B

Attend this session to learn about the new features and functionality delivered in PeopleSoft EPM 9.1 release. It covers both the Financials, HCM and Campus Solutions warehouses and Planning & Budgeting. The session also previews post 9.1 roadmap ideas.
Richa Dubey, Oracle

M3 · 30690 · Lessons Learned: Universal IDs and Shared Bio-Demo Data — Campus Community - Case Study — PS 9.0 — Ryman Ballroom BC

Hear about some lessons learned when the Nevada System of Higher Education implemented a universal student and employee ID across seven campuses and began synching student and human resources bio/demo data between three PeopleSoft instances.
James Garrison, University of Nevada, Las Vegas
Carrie Trentham, University of Nevada, Las Vegas

M3 · 30411 · Allowing Volunteers to Enter Gifts & Pledges? Are You Crazy??? — Contributor Relations - Case Study — PS 9.0 — Jackson B

Moody has developed a bolt-on application that with a little training will allow volunteers to take gifts and pledges that flow into Contributor Relations.
Frank Leber, Moody Bible Institute
John Sauceda, Moody Bible Institute

M3 · 30674 · Tips and Tricks for PeopleSoft CRM Online Marketing and Profiles — CRM - Tips and Tricks — PS 9.1 — Canal B

Come to this session to learn all about Online Marketing and the delivered Higher Education Profiles that are used to track Prospect, Applicant and Student data. As well as a functional overview of OLM, Profiles and a discussion of 9.2 enhancements, we will discuss tips and tricks on how to better manage your Online Marketing implementation and how to troubleshoot OLM issues.
Steve Morgan, Oracle

M3 · 30266 · 9.0 Enhancements to NSLDS Processing — Financial Aid - Oracle Application — PS 9.0 — Washington B

This session will focus on the enhancements made to NSLDS processing by Oracle Development for version 9.0.
Matthew Tafoya, Oracle
Jessica Holler, DePaul University

M3 · 30025 · Advanced XML Publisher: Bursting, Flex, Sub-Templates and More! — General Interest - Training — PS 9.0 — Ryman Ballroom A

At Alliance 2011, we presented XML Publisher: The Nuts and Bolts as an overview to building forms and integration with the PeopleSoft PIA. This follow-up session will build upon the overview and offer more in-depth details on several of the more useful advanced features built into XML Publisher. The session will include some practical scenarios where these techniques have been used for an understanding of how they can benefit attendees.
Robert Yosowitz, Arizona State University
Roger Lurie, Arizona State University

M3 · 30267 · PeopleSoft Answers: How to Enable PeopleSoft for Mobile Users — General Interest - Tips and Tricks — N/A — Ryman Studio JK

PeopleSoft Answers: How to Enable PeopleSoft for Mobile Users
Dave Bain, Oracle

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
M3	30459	**XML Publisher with connected query: A Primer**	**General Ledger - Tips and Tricks**	**PS 9.1**	**Jackson D**

Learn how to extend the use of XML Publisher by using connected query. Step by step we will build a connected query and then create an XML report around it. Examples will be from the Financials application suite.
Varsha Das, University of Central Florida

| M3 | 30342 | **What's a Cayuse And Why Are We Integrating PeopleSoft To It??** | **Grants, Contracts and Billing - Case Study** | **PS 8.9** | **Presidential Boardroom B** |

Follow along as we review the process Cleveland State University went through to integrate Cayuse proposal submission software to a new implementation of the Grants modules.
Miro Humer, Cleveland State University

| M3 | 30355 | **Grant Closeout & Audit Preparation Best Practices** | **Grants, Contracts and Billing - Tips and Tricks** | **PS 8.9** | **Presidential Chamber B** |

When the time comes for a grant to be closed out, how do you know if everything has been processed through your financial system correctly and that your data will stand up to the scrutiny of an audit? What are the best practices for closing a grant award while maintaining the flexibility to make adjustments if anything is discovered post-audit? How do you proactively look for anomalies or data discrepancies before an external auditor finds them for you?
Jeremy Hunsucker, Northwestern University
Melody Delfosse, Northwestern University

| M3 | 30366 | **Rutgers University: On-Boarding using SmartHire Templates in a Decentralized Environment** | **HRMS - Oracle Application** | **PS 9.1** | **Jackson A** |

During the implementation of PeopleSoft 9.1, Rutgers, The State University of New Jersey decided to leverage delivered functionality of SmartHire templates and capitalize on the opportunity to decentralize the hiring process. The goal was to create a process that would streamline the on-boarding process by using SmartHire Templates and to deploy the hiring process to the departments, allowing over 700 users across the three major campuses, to hire and manage their employees.
Peter Camp, Rutgers, The State University of New Jersey
Savitha Dubagunta, Rutgers, The State University of New Jersey

| M3 | 30537 | **HCM Idea Exchange** | **HRMS - Panel Discussion** | **N/A** | **Jackson C** |

HCM Idea Exchange. This session is designed for all HRMS users to interact with each other and the HRMS PAG to discuss issues, desires, and share knowledge. One of our most popular sessions and one worth coming to!
Peter de Andrade, Brandeis University

| M3 | 30436 | **PeopleSoft Payroll for North America Solutions 9.1 and Beyond** | **HRMS - Oracle Application** | **PS 9.1** | **Lincoln A** |

This session will give you a high level overview of Oracle's PeopleSoft Payroll for North America new payroll functionality in PeopleSoft Human Capital Management applications Release 9.1. It will also give you a peek of some new functionality delivered after 9.1 was released, as well as some future functionality in the works.
Kristen Emery, Oracle

| M3 | 30213 | **A New Model For Business Systems Support using Business Application Competency Centers** | **Oracle EBS - Case Study** | **EBS 12.1** | **Ryman Studio FG** |

Life after go-live! Supporting the business application optimally after go-live is a challenge. Combining 'IT support' resources with 'business process support' resources under single leadership can provide a better service for the customer community.
Jeffrey Thomas, University of Oxford

| M3 | 30646 | **Planning Your Oracle E-Business Suite Upgrade from Release 11i to 12.1 and Beyond** | **Oracle EBS - Oracle Application** | **EBS 12.1** | **Ryman Studio HI** |

Attend this session to hear the latest Oracle E-Business Suite Release 12.1 upgrade planning tips gleaned from talking to customers who have already done the upgrade. You'll get specific, cross-product advice on how to decide your project's scope, understand the factors that affect your project's duration, develop a robust testing strategy, leverage Oracle Support resources, and more. In a nutshell, this session tells you things you need to know before embarking upon your Release 12.1 upgrade project.
Anne Carlson, Oracle

| M3 | 30151 | **Birds of a Feather** | **Procurement to Pay - Panel Discussion** | **PS 9.1** | **Presidential Chamber A** |

The Procurement to Pay Birds of a Feather session will allow you to meet the PTP product advisory group and discover just what their role is within the HEUG.
Michael Williams, Florida State University

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
M3	30728	**Campus Accelerator: Enabling Rapid Upgrades of PeopleSoft**	**Project Management & Life Cycle - Vendor**	**PS 9.0**	**Jackson F**

A presentation highlighting Synch-Solutions' Campus Accelerator toolkit and service, which enables institutions to safely, quickly and efficiently achieve maximum value from the upgrade process.
John Berkenkotter, Synch-Solutions
Aaron Whincop, Synch-Solutions

| M3 | 30212 | **Employee Self Service: Making new hire enrollments work for your organization** | **Public Sector - Innovations** | **PS 8.9** | **Jackson E** |

The State of Tennessee administers benefits for over 150,000 employees. Not only do we administer benefits for State employees, we also administer benefits for higher education, local education, and local government employees. Each group has their own rules based on legislation. We have customized the e-Benefits process to allow it to work for our different groups.
Melissa Apple, State of Tennessee
Kelly Thompson, State of Tennessee

| M3 | 30482 | **Where Do We Start? A Data Warehousing Strategy for New and 'Renewed' Implementations** | **Reporting and Business Intelligence - Case Study** | **N/A** | **Canal D** |

Maybe you have been tasked with overseeing or participating in the implementation of a data warehouse or an enterprise business intelligence program; or maybe you are in charge of revitalizing the data warehouse at your institution. Perhaps no one has tasked you with anything of the sort, but you know a data warehouse/business intelligence solution is in your future. In order to know where to start, you need to know where you are. This session will help you get started by providing tools for assessment and planning, options for moving forward (like do we build or buy), and preparing a long-term strategy.
John J. Rome, Arizona State University
Janet Fleming, CedarCrestone

| M3 | 30066 | **Great! We have PeopleSoft EPM & OBIEE! What's next?** | **Reporting and Business Intelligence - Tips and Tricks** | **PS 9.1** | **Canal E** |

Considerations in management and growth of an evolving DW/BI environment that is based upon the pre-built PeopleSoft EPM and OBIEE/Fusion Intelligence platform.
Steven Dempsey, Oracle

| M3 | 30261 | **PeopleTools Developer Series: Secure Coding Practices** | **Security and Audit - Tips and Tricks** | **N/A** | **Bayou D** |

PeopleTools Developer Series: Secure Coding Practices
Greg Kelly, Oracle

| M3 | 30054 | **Provisioning of Individual User Access** | **Security and Audit - Case Study** | **PS 9.0** | **Canal A** |

Customization in use at Florida International University which allows users to request security changes within PeopleSoft Campus Solutions and for security administrators to control who assigns what parts of security, from roles to row-level.
Jim Hardiman, Florida International University

| M3 | 30717 | **TouchNet SponsorPoint – Pain Relief for Contract Payments** | **Student Financials - Vendor** | **N/A** | **Presidential Boardroom A** |

Discover TouchNet® SponsorPoint™, a new unified commerce solution that takes the sting out of third-party billing, sponsor payments, and reconciliation of contract accounts.
Dan Toughey, TouchNet Information Systems, Inc.
John Murphy, TouchNet Information Systems, Inc.

| M3 | 30368 | **Account Reconciliation between Campus Solutions and PeopleSoft Financials** | **Student Financials - Training** | **PS 9.0** | **Ryman Studio L** |

Account Reconciliation between Campus Solutions and the Finance Management System
Cheryl Friesenhahn, The University of Texas at Dallas
Kazi Hasan, The University of Texas at Dallas

| M3 | 30141 | **Using XML Publisher to Create E-Billing** | **Student Financials - Tips and Tricks** | **PS 9.0** | **Ryman Studio MNO** |

The College of New Jersey has developed a process utilizing XML Publisher and the delivered billing process with some additional customizations to produce our monthly Ebills. The customization is linked to our Auxiliary Access users and allows the College to also email the auxiliary users the billing email. This presentation will discuss the customizations and the changes we made to the delivered XML Publisher billing statement.
Eileen Rose, The College of New Jersey

M3 30582 "To Pay or Not to Pay" Degree Audit Course Checking for Financial Aid Purposes — Student Records - Case Study — PS 9.0 — Ryman Studio ABC

At Seminole State College, we customized the Enrollment Engine to alert students if the course they are trying to enroll in is not a part of their program of study. This allows students to stay on track and register for courses that are applicable to their program of study and accept the responsibility to pay for courses they would like to take that are outside their program of study.

We will describe the modifications made to enrollment as well as the custom checks and pages created to make this process 100% automated.
Carlene McNeil, Seminole State College of Florida
Jatin Shah, Seminole State College of Florida
Ana Benitez, Seminole State College of Florida

M3 30130 Student Records Workflow Working — Student Records - Case Study — PS 9.0 — Ryman Studio DE

Oracle delivers workflow technology but it is not widely used in the Campus Solutions world. We finally were able to use the delivered workflow technology to track and monitor grade change requests and approvals before processing in the Registrar's Office.
Debby Hill, The University of Southern Mississippi

M3 30395 Don't Miss the Mark - An Introduction to Activity Management — Student Records - Oracle Application — PS 9.0 — Ryman Studio PQR

Overview of Activity Management
Mindy Paul, Oracle
Brian Hunnicut, Oracle

M3 30110 PeopleSoft Update Process and Feature Packs, Balancing the Ship — Technical - Panel Discussion — PS 9.0 — Bayou A

Panel discussion on how customers are balancing maintenance with upgrades.
Greg Wendt, Texas Christian University

M3 30187 Going virtual - conversion from big iron to virtual servers — Technical - Tips and Tricks — PS 9.0 — Bayou B

Going Virtual, will explore the path Indiana University took to move its PeopleSoft installation off AIX and onto virtual machines running on commodity hardware.
Kevin Eder, Indiana University

M3 30259 Performance Tuning for the PeopleSoft Administrator — Technical - Tips and Tricks — N/A — Bayou C

Performance Tuning for the PeopleSoft Administrator
John Houghton, Oracle

M3 30256 PeopleTools 8.52 Highlights: PeopleTools In Action — Technical - Tips and Tricks — N/A — Bayou E

PeopleTools 8.52 Highlights: PeopleTools In Action
Jeff Robbins, Oracle

M3 30308 On the Road to Better Training and Presentation: From "Elevator Rides" to "20 Slides" — Training & End User Support - Tips and Tricks — N/A — Canal C

If this sounds like you, then you're in a rut and you need to freshen up: You're a trainer, and you're bored by your same-old instruction for your class participants. You're not a trainer, and you're tired of your business-as-usual PowerPoints to present project proposals and status reports to your boss(es).

Whether you design training programs on PeopleSoft systems, or present proposals to management for upgrades to those systems, you need to be able to present information concisely, cogently, persuasively, and -- most of all -- memorably. This session focuses on innovative ways to do just this -- ranging from the elevator speech (2 minutes, no props) to prezi (think of zooming in on a heavily covered whiteboard) to pecha kucha (20 slides, 20 seconds each)...and many more.
Normandy Roden, University of Colorado

Monday, March 19 12:45 PM–01:45 PM

M4 30276 Avoiding Mines with your Subs — Academic Advising - Tips and Tricks — PS 9.0 — Ryman Ballroom D

In this presentation we will explore the student exceptions functionality of the AA system. We will cover the tools available for making simple exceptions, waivers and credit changes, and blanket exceptions. Additionally, we will cover the relationship between building requirements and the exception process; including the consequences that all-stats requirements have on the exemption process and best practices for building in order to make exceptions simpler. Finally, we will demonstrate how we use PSQuery's reporting capabilities to report on exception data.
Brian Rockwood, University of Connecticut
Kimberly Page, University of Connecticut

PeopleTools Developer Series: Mastering PeopleSoft's Reporting Tools
Willie Suh, Oracle

| M4 | 30205 | **Integrating Multiple Data Sources in the Oracle BI Architecture** | **Reporting and Business Intelligence - Training** | N/A | **Canal E** |

Oracle BI as a platform has powerful capabilities for integration to multiple data sources. The BI server itself has multi-data source capabilities and the ETL tools add to this capability. The logic to handle multiple data sources can be configured at the level of either the ETL tool repository or the BI repository tool. This session will discuss integration options, and the pro's and con's of several approaches to integrate multiple data sources.
Phillip Scott, Oracle

| M4 | 30316 | **Security Blanket - A 360 Degree Security View That Won't Wrench Your Neck** | **Security and Audit - Case Study** | PS 9.0 | **Canal A** |

Over the last few years TCU has been building a foundation of tables and processes within PeopleSoft supporting identity management. This presentation centers on a custom PeopleSoft component containing 10 different pages of information that the Help Desk and others can use to quickly track down user security issues. This brings together data about the user which was previously spread out in various locations. We will dive into each of these pages and discuss where the data comes from and how it is maintained.
Richard Yantis, Texas Christian University
Lenelda Pennington, Texas Christian University

| M4 | 30163 | **Birds of a Feather - Student Financials - Part 1** | **Student Financials - Panel Discussion** | N/A | **Ryman Studio MNO** |

First of two sessions to discuss topics of interest to the Student Financials community. Come join the informative discussion and share your needs/questions/experience with the rest of the group.
Nicole Louie, California State University Chancellor's Office

| M4 | 30242 | **Student Attendance Monitoring: A Case Study of The University of Manchester** | **Student Records - Case Study** | PS 9.0 | **Ryman Studio DE** |

Pressure to monitor student attendance is growing in the UK. Manchester University has developed basic Campus Solutions functionality into a powerful tool for managing student attendance.
Garry Burns, The University of Manchester

| M4 | 30211 | **The Transfer Credit Image** | **Student Records - Case Study** | PS 9.0 | **Ryman Studio PQR** |

Ohio University admits over 3,000 transfer students every year. There is a distributed model of evaluating and equating coursework which was paper based, inefficient and error prone. With the Rufus Initiative, which implements Oracle's Campus Solutions modules, we used state of the art tools to build the transfer credit configuration and rules, integrate with a document centric workflow system, and streamline the entire process, all while maintaining compliance with the state's transfer policies.
Robert Callahan, Ohio University

| M4 | 30089 | **Student Records Birds of a Feather** | **Student Records - Tips and Tricks** | PS 9.0 | **Washington B** |

Birds of a Feather (BOF)is an interactive session providing opportunity for all Student Records module users to gather together, discuss, and to help each other. The Student Records Product Advisory Group (SR PAG) members will provide a brief annual report and a forward perspective on issues impacting the community. There will be plenty of time for attendees to share questions and answers and present workarounds that have solved challenging questions. Excellent networking and knowledge transfer opportunity for both beginners and long-term users of the module.
Michele Thibodeau, Butler University

M6 30072 Harvard's Hyperion Toolbox: Having the Right Tool for the Job — Budgeting and Planning - Case Study — Hyp 11.x — Jackson B

In a large, decentralized environment such as Harvard University, there exists a diverse set of users that interact with a single budget and planning system. The budgeting processes, financial backgrounds and technical skills of this population vary greatly and there isn't one "tool" that is right for every job. In this session learn how Harvard developed its Hyperion Planning "toolbox" to provide several budgeting options to suit the needs of its planners that range in role from Financial Dean to Department Administrator. Tools covered include: Planning Web Forms, Task Lists, SmartView Ad-Hoc Analysis, SmartView Planning, User-Defined Variables, and a custom data file upload process.
Ryan Sullivan, Harvard University

M6 30734 HighPoint Mobile - Improving the Student and Employee Experience — Campus Community - Vendor — PS 9.1 — Jackson C

Learn how HighPoint Mobile is enhancing the campus experience and improving constituent success and retention at 4-year public & private universities and 2-year college systems.
Jose Peres, HighPoint Consulting
Mario Albuerne, HighPoint Consulting

M6 30132 Zero to Sixty in Sixty - How CommGen reduces our paper and labor costs in sixty seconds. — Campus Community - Tips and Tricks — PS 9.0 — Ryman Ballroom BC

We reassessed our communications plan, human resources, paper costs and technology to find more cost efficient and effective ways to communicate with our applicants using communication generation, checklists and letter generation.
Deahtra Johnson, Florida A&M University
Ruthie Anderson, Florida A&M University

M6 30365 Communication Generation Advanced Features — Contributor Relations - Tips and Tricks — PS 9.0 — Lincoln CDE

Communication Generation Advanced Features will be presented: email, mixed email/letters, checklists, comments, enclosures; XML Publisher formatting with tables, conditions and calculations.
Rick Campbell, Anderson University

M6 30461 Effectively using the Email Bounce Processor in CRM Online Marketing Version 9.1 — CRM - Case Study — PS 9.1 — Canal B

Case Study: Issues and Resolutions surrounding the Email Bounce Processor in Customer Relationship Management Online Marketing version 9.1 at the University of Colorado
Lisa Carr, University of Colorado

M6 30222 Financial Aid Birds-of-a-Feather Session 1 — Financial Aid - Training — N/A — Governor's C

Come meet with other members of the FA community to discuss your Campus Solutions issues. There will not be any administrative overhead, just talk about what interests you.
Caroline Weir, University of Glasgow

M6	30407	**PeopleSoft in the Cloud—Yes You Have Options!**	**General Interest - Oracle Application**	**PS 9.1**	**Ryman Ballroom A**

Market forces and an uncertain economic climate might lead you to think your only option is to move away from PeopleSoft. You want to reduce overall costs including those for infrastructure, maintenance, and upgrades. Despite these pressures, you still want rich application functionality, top-grade security, fast reliable performance, a robust infrastructure, reduced risk, and above all, low predictable costs. PeopleSoft On-Demand has several options that can address the needs of the Higher Ed community, and provide the financial flexibility and agility you seek. For example, PeopleSoft On-Demand supports greater personalization, business process configuration based on your needs, and unique customer branding. PeopleSoft On-Demand applications offer the fastest time to value. In addition, Oracle's cloud is unmatched in operational excellence.
Matthew Haavisto, Oracle

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
M6	30374	**Customization Documentation? Have your PS system do the work for you!**	**General Interest - Innovations**	**PS 9.0**	**Ryman Ballroom D**

Implementation of customization's and changes require both technical and functional documentation. Have your PS system auto document what was added or modified; freeing up hours of documentation tasks.
Gary Chismar, Florida State University

M6	30043	**Birds of a Feather**	**General Ledger - Panel Discussion**	**PS 9.0**	**Jackson D**

The GL Birds of a Feather session will allow you to meet the GL Product Advisory Group and find out more about what they do.
Jennifer Hanson, State of Kansas

M6	30056	**The Keys to Successful Deployment of the PeopleSoft Grants Portal**	**Grants, Contracts and Billing - Workshop**	**PS 9.1**	**Presidential Chamber A**

Deployment of the PeopleSoft Grants Portal
Tien Nugroho, Oracle
Mark Rosenberg, Oracle

M6	30540	**Grants Queries and Reports - There's a View for That.**	**Grants, Contracts and Billing - Tips and Tricks**	**PS 9.1**	**Presidential Chamber B**

Grant information is stored across many records. Gathering these pieces of information to create a query or report can be tiring, difficult and often repetitive – especially for ad hoc requests. Query creation can be greatly simplified by the use of delivered and custom database views. This presentation will discuss some delivered views and provide tips and tricks for the creation of custom views to meet your reporting needs.
Gregory Baker, University of South Florida

M6	30444	**Don't Let Your Older PeopleSoft HCM Hold You Back from the Latest PeopleSoft Talent Management Capability**	**HRMS - Vendor**	**PS 9.1**	**Jackson E**

Don't Let Your Older PeopleSoft HCM Hold You Back from the Latest PeopleSoft Talent Management Capability
Nancy Estell Zoder, Oracle

M6	30486	**PeopleSoft Absence Management 9.1 and Beyond**	**HRMS - Oracle Application**	**PS 9.1**	**Lincoln A**

This session will give a high level overview of Oracle's PeopleSoft Absence Management new functionality in Release 9.1 as well as to showcase our Absence Management product roadmap with new features planned for the next release.
Kayla Nguyen, Oracle

M6	30555	**Subledger Accounting (SLA) in R12 - Stanford University**	**Oracle EBS - Oracle Application**	**EBS 12.1**	**Ryman Ballroom EF**

What is Subledger Accounting (SLA) in R12 and how is Stanford University using it?
Lisa Skinner, Stanford University

M6	30272	**Upgrading to Release 12 without consulting : A Case Study from the University of Northern Iowa**	**Oracle EBS - Case Study**	**EBS 12.1**	**Ryman Studio FG**

The University of Northern Iowa completed an Oracle e-Business Release 12 upgrade in November 2011 with minimal consulting. The presentation will cover the strategies used to be successful in this project.
Melanie Abbas, University of Northern Iowa

M6	30140	**Improving the Procure-to-Pay Process using Metrics and Reporting**	**Procurement to Pay - Tips and Tricks**	**PS 9.0**	**Presidential Boardroom A**

Learn how Kentucky Community and Technical College System (KCTCS) re-engineered, with great success, process improvements within its procure-to-pay process.

PeopleTools Tips and Techniques
Jim Marion, Oracle

| T2 | 30621 | **What's in Your Toolbox? Using Your Resources to Take Your Training to the Next Level** | Training & End User Support - Training | PS 9.1 | Canal C |

With two trainers managing a blended learning solution for 700+ users, our training team at the University of Pennsylvania's Development and Alumni Relations department has had to get creative and fully utilize our resources in order to provide timely, meaningful, and dynamic training to our Contributor Relations Community. In this session, we will discuss our use of Articulate, Snagit, Microsoft Office, SharePoint, and various other tools as well as facilitate an open discussion on resources being utilized by our peers.
Leigh-Anne Garry, University of Pennsylvania

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM

Tuesday, March 20 10:45 AM–11:45 AM

| T3 | 30133 | **Using Entity Groups and Dynamic Conditions to Calculate Unique Hours** | Academic Advising - Case Study | PS 9.0 | Ryman Ballroom EF |

Implementing a function that calculates Unique Hours has been on our school's wish list for a while, and now we can implement it using AA functionality.
Mark Pickerel, University of Kansas

| T3 | 30008 | **Admissions and Campus Community Jeopardy** | Admissions - Tips and Tricks | PS 9.0 | Ryman Studio JK |

Using the format of the popular game show Jeopardy, this session will provide useful information about setup and functionality in the Admissions and Campus Community modules of Campus Solutions Version 9.0
Debbie Littlefield, Marquette University
Margaret Kennedy, ioConsulting, Inc.
Janice Radetski, Marquette University

| T3 | 30240 | **New PeopleSoft Admission Implementation** | Admissions - Tips and Tricks | PS 9.1 | Ryman Studio L |

Implementing a new student information system for a higher education institution is a laborious task for multiple offices, requiring teamwork and the shifting of priorities for all staff members. Ohio University recently implemented PeopleSoft Campus Solutions for campus-wide use. Angela McCutcheon will present the successes and challenges experienced by the Ohio University Graduate College from importing current application data from CollegeNet into PeopleSoft to developing processes to improve application processing time and integration with other applications. Information will be shared on application processing, records and enrollment, and developing appropriate reporting tools for improved efficiency.
Angela McCutcheon, Ohio University

| T3 | 30658 | **SAS Financial Management Budget, Planning, & Reporting for PeopleSoft Financials** | Budgeting and Planning - Case Study | PS 9.0 | Jackson C |

An excel based approach to budgeting, Planning, and reporting in PeopleSoft Financials V9.0 using SAS® Financial Management. MiraCosta College was looking for a solution to its biggest problems with budgeting via spreadsheets. MiraCosta found the solution with SAS Financial Management. This session describes the implementation and the benefits reaped from SAS® Financial Management application. SAS® Financial Management is a comprehensive solution for enterprise planning, budgeting, consolidation and reporting. With a proprietary calculation engine and accounting logic, this solution consolidates planning or historical information on demand.
Moira Mahony, MiraCosta College

| T3 | 30755 | **CRM: A Solution for the Entire Constituent Life Cycle** | Campus Community - Vendor | PS 9.1 | Hermitage D |

CRM in Higher Ed has been considered by many as a solution for Recruiting. In this session, Higher Ed institutions can hear how CRM will add value to their Constituents Entire Life Cycle.
Bryan Hinz, Apex IT
Patrick Sells , Apex IT

| T3 | 30118 | **Search/Match on Steroids using Delivered Functionality** | Campus Community - Tips and Tricks | PS 9.0 | Ryman Ballroom BC |

Using up to 20 rules within one parameter to find all actual and realistically possible single matches to reduce suspense and posting review time by 100s of hours with greater confidence with results. Based on the premise that either the data in PeopleSoft often has typos or the incoming file has types - on many levels - birthdate, address, email, zip, and even the spelling of their name.
Jeff Rivell, University of Delaware
Susan Tuckey, University of Delaware

| T3 | 30733 | **Practical setup and implementation of XML Templates** | Campus Community - Vendor | PS 9.0 | Ryman Studio HI |

Learn more about XML templates (the basics and its advanced functions) and how to realize its full potential. Examples of CS Admissions letters will be used but the focus will be on coding templates.
Michael Eastwood , Deloitte

| T3 | 30302 | **Stewardship Tracking - What ManTracker Can't Tell You!** | Contributor Relations - Panel Discussion | PS 8.9 | Jackson B |

The University of Western Ontario will present their solution to tracking their Stewardship reports utilizing delivered functionality without customizations to the product as well as invite attendees to participate in a facilitated discussion and sharing of other avenues for successful stewardship tracking.
Sue Morin, University of Western Ontario

| T3 | 30710 | **Get to know your students - For life!** | CRM - Oracle Application | N/A | Canal B |

Managing your relationship from high-school to alumni with Oracle CRM On Demand
Gary Caunitis, Oracle

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
T3	30721	**Navigator's Kuali Implementations at Haverford College and University of Arizona.**	General Interest - Vendor	N/A	Hermitage B

Navigator's implementation of Kuali Financials v4.1 at Haverford College and v3.0 at University of Arizona.
Marcelo Casella, Navigator Management Partners LLC
Natalie Webb, Navigator Management Partners LLC

| T3 | 30330 | **Upgrading – A Functional Team Plan** | General Interest - Tips and Tricks | N/A | Ryman Ballroom A |

Upgrades are significant events, but they do not tend to happen very often and as a result it is easy to forget all of the ins and outs and tiny, but important details that need to happen during each upgrade. This presentation will focus on sharing tips and tricks related to the planning and execution of key functional tasks that need to occur during an upgrade. If you are at the start of an upgrade or are planning one soon, then this presentation is for you!
Lisa King, Nova Scotia Community College
Maxine Pike, Nova Scotia Community College
Kathy Hunt, Nova Scotia Community College

| T3 | 30388 | **Get Proactive: Best Practices for System Uptime and Performance** | General Interest - Tips and Tricks | N/A | Ryman Ballroom D |

Want to prevent problems? Resolve issues faster? Patch and upgrade with confidence? In this session, you will learn how companies are achieving incredible business results by leveraging the proactive support innovations available to you today through your Oracle Premier Support coverage.
Margaret Burry, Oracle
Joanne Nolan, Oracle

| T3 | 30421 | **Asset Transfers and Lost/Missing through Self-Service** | General Ledger - Case Study | PS 9.1 | Jackson D |

Discover how University of Central Florida is utilizing the Asset Self-Service to transfer, or declare asset lost/missing online. See how the self-service functionality help the school reduce cost and learn how they design their routing workflow approval to meet the university required business process.
Elena Wilson, University of Central Florida
Kristal Jackson, University of Central Florida

| T3 | 30096 | **Reduce Costs with PeopleSoft Approval Framework for Finance & Procurement (Part 2)** | General Ledger - Tips and Tricks | PS 9.1 | Presidential Boardroom A |

In this environment of increasing controls and continuous budget cuts, organizations need configurable workflow approval that is easy to implement, is flexible to accommodate changing business & regulatory conditions. PeopleSoft Financials and Procurement Release 9.1 extends the use of the approval framework in PeopleSoft Financials and the Procurement solutions. This is a two session presentation of how users can set up workflow rules for Procurement which can extend into Financials or diverge to support different requirements. Please join us for part 1 and part 2 to gain the full picture and value.
Bhupi Sondhi, Oracle

| T3 | 30412 | **Going With The Flow: Automating Subawardee Audit Requests Using PeopleSoft Delivered Workflow Engine** | Grants, Contracts and Billing - Case Study | PS 9.0 | Presidential Boardroom B |

Using delivered PeopleSoft Workflow Engine, Fred Hutchinson Cancer Research Center has created a custom, automated email system for requesting and tracking audit compliance data from subawardee institutions.
Stephanie Dennon, Fred Hutchinson Cancer Research Center
Jinsheng Qiu, Fred Hutchinson Cancer Research Center

| T3 | 30283 | **What's Going on With F&A?** | Grants, Contracts and Billing - Training | PS 8.9 | Presidential Chamber B |

An overview of the processes that surround Facilities & Administration (F&A).
Christine S. White, University of Delaware

| T3 | 30417 | **Oh, Yes eBenefits really benefits….** | HRMS - Case Study | PS 9.0 | Jackson A |

At Seminole State College, we implemented eBenefits to get away from paper forms and manually data entry. This allows our employee to review their current enrollment and make their benefit selects for the coming year from anywhere they have web access during the open enrollment period. We will walk you through our journey enabling eBenefits, the issues we encountered and decisions we made along the way.
Jatin Shah, Seminole State College of Florida
Leroy Bottomley, Seminole State College of Florida

| T3 | 30434 | **PeopleSoft HCM Release 9.1 Feature Pack Enhancements** | HRMS - Oracle Vision | PS 9.1 | Lincoln A |

Come see the exciting new features we have planned for Release 9.1 Feature Packs.
Carolyn Cozart, Oracle

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
T3	30198	**The use of APEX at Oregon Health & Science University**	**Oracle EBS - Case Study**	**EBS 12.1**	**Ryman Studio ABC**

Oregon Health & Science University has used Oracle's Application Express (APEX) for a number of customizations and have found the tool to be easy to learn with limited time required for development efforts. Come and learn about the various ways OHSU has employed APEX and some of our lessons learned.
Kara McFall, Oregon Health and Science University

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
T3	30385	**How far have we got on our Oracle Roadmap (SOA, R12, Hyperion) journey**	**Oracle EBS - Tips and Tricks**	**EBS 12.1**	**Ryman Studio FG**

Imperial College is now into the second year of a major Oracle Roadmap Program. This includes projects for the implementation of Oracle SOA Suite 11G for the real time integration of key business data, upgrading to R12 and implementing Hyperion for budgeting and planning.

By March 2012 we should be live with both our SOA and Hyperion implementations and well advanced with our R12 Upgrade.

This presentation will give an update on our progress and share with you, hints, tips and lessons learned, highlight the wrong turns we've taken and give an insight into the strategy / direction we see for each of these prodcuts.
Todd Harrison, Imperial College London

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
T3	30527	**Travel and Expenses 9.1 - Just the Basics!**	**Procurement to Pay - Training**	**PS 9.1**	**Presidential Chamber A**

An overview of basic Travel and Expenses 9.1 functionality.
Debi Williams, Florida State University

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
T3	30724	**Implementation Training and Documentation Methodology Using UPK - How to pull it all together.**	**Project Management & Life Cycle - Vendor**	**PS 9.1**	**Hermitage C**

Change happens but effective change comes from good planning. See how we use our implementation methodology and incorporate UPK for training, documentation, user acceptance and change management.
Karen Butterfield, MIS Inc.
Joe Rossi, MIS Inc.

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
T3	30500	**Status Reporting Strategies to Multi-tier Audience on an HCM Implementation**	**Project Management & Life Cycle - Case Study**	**PS 9.0**	**Jackson E**

Do you struggle with the logistics of reporting status of your project to multi-tier audience? Do you struggle with tailoring your message? Would you like to enhance your knowledge base with additional tools and techniques that will help you with reporting? If the answer to these questions and many others is a "yes", then you will benefit from this presentation.
Anand Vangipuram, University of Wisconsin - Madison
Gordy Klindt, University of Wisconsin - Madison

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
T3	30521	**Managing Inventory Issues down to a person not just Department.**	**Public Sector - Case Study**	**PS 8.9**	**Jackson F**

Tracking inventory at the department level didn't always meet the needs of some State of Tennessee agencies. The Tennessee Highway Patrol needed to track sensitive inventory items to a person.   Being able to track and report by person is especially important when it's time for those items to be replaced or returned.   Come join us to find out how Tennessee accomplished our inventory tracking needs.
Chad Wallace, State of Tennessee

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
T3	30202	**Managing Capital Asset Infrastructure with Oracle's PeopleSoft Projects & Primavera Applications**	**Public Sector - Oracle Application**	**PS 9.1**	**Lincoln CDE**

Oracle and a long time PeopleSoft applications customer plan to present: 1. Oracle's software blueprint for managing capital assets, 2. The latest enhancements in the PeopleSoft Projects, PeopleSoft Assets, and Primavera applications, including the integration of PeopleSoft Projects 9.0 and 9.1 to Primavera P6 EPPM, and 3. A case study on deploying the capital infrastructure management of applications.
Melanie Stapelman, Oracle
Paul Martin, University of Western Ontario

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
T3	30589	**Building a Data Warehouse to Support Longitudinal Analysis for Hyperion Public Sector Planning**	**Reporting and Business Intelligence - Case Study**	**Hyp 11.x**	**Canal D**

The University of Missouri System is implementing Oracle Hyperion Public Sector Planning to support enterprise budget planning. During the planning and implementation phases for the Hyperion project, the need to store and analyze the data and metadata (dimensions) provided to the Hyperion system from the PeopleSoft systems was identified and a strategy developed.

This session will discuss solutions developed to support longitudinal and snapshot analysis of data from PeopleSoft and Hyperion Public Sector Planning at the University. The strategy utilizes existing transformations created to populate Hyperion data and metadata from PeopleSoft to create new data marts and enhance existing data marts in the University's Enterprise Data Warehouse.
Linda Okamura, University of Missouri System
Jeff Elliott, University of Missouri System

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
T3	30174	**PeopleSoft EPM Campus Solution Warehouse: More analytics, more flexibility and better results.**	**Reporting and Business Intelligence - Oracle Application**	PS 9.1	Canal E

Come to this session to get first-hand information from Product Development and Strategy on the new analytics/additional functionality added into the PeopleSoft EPM Campus Solution Warehouse 9.1 release (including the delivered OBIEE dashboards and reports that are part of the Fusion Intelligence product) and related product roadmap information. This session will be of interest to both Institutions using the Warehouse and/or the OBIEE dashboards and reports and to Institutions who could be at the early stages of investigating and understanding this solution.
John Robinson, Oracle

| T3 | 30718 | **XML Publisher - Tips and Tricks** | **Reporting and Business Intelligence - Vendor** | PS 9.0 | Hermitage A |

Useful tips and techniques that you can apply to your XML Publisher reports right away. This session is appropriate for anyone who uses, or will be using, XML Publisher (also known as BI Publisher).
Tim Burns, ioCosulting, Inc.

| T3 | 30775 | **Definitions Come First! Kansas State uses DataCookbook.com to Prepare for Data Mart Project** | **Reporting and Business Intelligence - Vendor** | N/A | Hermitage E |

DataCookbook.com is an agreement engine designed to help schools build up their data dictionary and involve data stewards. Come see how Kansas State University is using this for data mart projects.
Scott Flory, IData Incorporated
Miriam Clark, Kansas State University
Brian Parish, IData Incorporated

| T3 | 30079 | **Security 301 - Advanced Security – So what will this baby really do?** | **Security and Audit - Tips and Tricks** | N/A | Canal A |

Making it really run can be as simple as dual exhausts, or as deep as a custom crankshaft. What can we do, and what tools are handy, to really take the driver's seat with security?
Denise Goin, University of Nebraska
John Van Sant, Princeton University

| T3 | 30761 | **Fusion HCM with Emphasis on Talent Management and PS HCM Co-Existence** | **Special Sessions - Oracle Vision** | N/A | Governor's C |

Attend this session to hear from Oracle executives about the value modern HCM applications bring and discover the innovations delivered in Oracle Fusion Human Capital Management.
Gretchen Alarcon, Oracle

| T3 | 30156 | **Dolly, would you sing me a Hosted Order Page (HOP) solution?** | **Student Financials - Case Study** | PS 9.0 | Ryman Studio MNO |

PeopleSoft's ePayment API was delivered in Feature Pack 2. This session will review how Northern Illinois University integrated the ePayment API with Cybersource's Hosted Order Page service.
Kathryn Hogshead, Northern Illinois University

| T3 | 30515 | **Drop and Withdrawal Processing** | **Student Financials - Tips and Tricks** | PS 9.0 | Washington B |

Join us for a more advanced discussion on the nuances of drop and withdrawal processing. This session will be a continuation of Alliance 2011 'Integration Points Between Student Financials and Student Records For Drop/Withdrawal Processing'. In this year's session more complex scenarios will be discussed, including sessional adjustments, adjustments involving dynamic dated classes, and the logic used by tuition calculation process to determine which adjustment calendar to use.
Myrna Fitzpatrick, Oracle

| T3 | 30525 | **Get Ready, Get Set. Go! Going mobile in 6 weeks or less.** | **Student Records - Innovations** | PS 9.0 | Ryman Studio DE |

Lone Star will unveil how we partnered with HighPoint Consulting to rapidly implement their HighPoint Mobile solution to meet the growing demand of students and staff with proven mobile applications that allows students to register for classes, check grades and class schedules, and for faculty to view class rosters and grade rosters.
Jen Murillo, Lone Star College System
Susan Garland, Lone Star College System
Mario Albuerne, HighPoint Consulting

| T3 | 30340 | **Walk the Line over to Enrollment Web Services** | **Student Records - Oracle Application** | PS 9.0 | Ryman Studio PQR |

An overview of the enrollment web services recently delivered for student self service, from Browse Course Catalog thru Enrollment functionality.
Vera Walker, Oracle
Raghav Nirwani, Oracle

T3	30367	**PeopleSoft Test Framework (PTF) Panel Discussion**	**Technical - Panel Discussion**	N/A	**Bayou A**

This will be a panel discussion to talk about the PeopleSoft Test Framework (PTF).
Michael Klemen, North Dakota University System

| T3 | 30551 | **Monitoring Performance in a Virtual Server World** | **Technical - Tips and Tricks** | PS 9.1 | **Bayou B** |

Although it is somewhat more complicated than traditional server environments, the ability exists to regularly monitor virtual server environments effectively. Regular monitoring, especially in a virtual environment, enables an organization to understand when to enhance capacity and to identify resource problems while they are still small. Baseline data provides the basis for identifying when things go awry. This session will help you understand how to better parse and use that data in order to proactively tune your server environment while relating real life performance of production virtual environments. Some analytical will be given on web page loads so that an organization can compare the performance of its current system setup with the data from the virtual environment being presented.
Jeffrey Strain, Brigham Young University

| T3 | 30290 | **PeopleTools Developer Series: Performance Tips for the PeopleSoft Developer** | **Technical - Tips and Tricks** | N/A | **Bayou C** |

PeopleTools Developer Series: Performance Tips for the PeopleSoft Developer

PeopleTools 8.52 Highlights: Integration Broker
Dave Bain, Oracle

| T3 | 30416 | **Help! In-Application Support in 9.1: UPK Design & Lessons Learned** | **Training & End User Support - Case Study** | PS 9.1 | **Bayou E** |

Ryerson University's user support/training solution for Self Service, Manager Self Service, Workforce Administration and custom application eAppoint, was found by implementing In-Application (Help Integration) support in PeopleSoft 9.1.
Robin Riley, Ryerson University

Tuesday, March 20 01:15 PM–02:15 PM

| T4 | 30693 | **Data Source + Template + Comm Gen = Personal, Efficient, and Specific Admissions Communications** | **Admissions - Tips and Tricks** | PS 9.0 | **Ryman Ballroom EF** |

Do your admissions communications require a lot of time and effort? See how one school has utilized data sources, templates and communication generation (comm gen) to maximize personalization, specificity, and efficiency with admissions communications.
Carrie Trentham, University of Nevada, Las Vegas

| T4 | 30339 | **Valuable Lessons From A Planning Implementation at The University of Texas Medical Branch.** | **Budgeting and Planning - Case Study** | Hyp 11.x | **Jackson C** |

Some things you get taught and some things you just learn. Join us for an in depth look at the valuable lessons we learnt from a complex Planning Implementation at the University of Texas Medical Branch.
Revathi Sellappan, University Of Texas Medical Branch Galveston

| T4 | 30522 | **Mastering Constituent Data (MDM) at Florida State University** | **Campus Community - Case Study** | PS 9.0 | **Ryman Studio JK** |

This presentation will chronicle the first year of Florida State University's initiative to centrally managing constituent data across its myriad of enterprise applications. You will learn about the various use cases that FSU is striving to support, the various approaches that were explored, and the final approach that was chosen, which drew heavily on strategies that were developed to support the HCM/CS split.
Randy McCausland, Florida State University

| T4 | 30171 | **Birds of a Feather** | **Contributor Relations - Panel Discussion** | N/A | **Jackson B** |

Birds of a Feather session will provide Contributor Relations users an opportunity to share insight and ask questions of others in the community.
Cathy Burrier, MICA

| T4 | 30394 | **Population Selection - it's not just for queries!** | **Financial Aid - Tips and Tricks** | PS 9.0 | **Ryman Ballroom BC** |

Learn how to enhance your batch population selection with Equation and File inputs. An overview of the three delivered population selection options.
Brad Baker, University of Colorado

| T4 | 30544 | **Basics of Parent PLUS Loan Processing** | **Financial Aid - Tips and Tricks** | PS 8.9 | **Ryman Studio ABC** |

How to use COD files and PeopleSoft query to award and disburse Parent and Graduate PLUS loans.
Bridgette Betz, Missouri University of Science and Technology

T4	30723	**I want it Now: My World on the Move.**	**General Interest - Vendor**	**PS 9.1**	**Hermitage C**

Enable your students, faculty and staff to have mobile access to the key PeopleSoft business processes they need.
John Gilligan, CIBER

| T4 | 30173 | **ERP Governance-Partnership is Key to Success** | **General Interest - Case Study** | **PS 9.1** | **Ryman Ballroom A** |

Along with implementing a full suite of PeopleSoft products, Lone Star College System implemented a new way of overseeing the system. Business Units now own, change and maintain the system with IT support. Learn how they created this new business model through partnerships and a structured governance process.
Harry Khehra, Lone Star College System
Mario Berry, Lone Star College System

| T4 | 30644 | **Lessons Learned from a Portal 9.0 upgrade** | **General Interest - Case Study** | **PS 9.0** | **Ryman Ballroom D** |

This session will cover lessons learned during the upgrade of our Portal environment to the 9.0 version. This will include information about managing the upgrade with PeopleTools, new branding styles, security, and functional and technical issues that arose from our upgrade.
Carl Esposito, The University of Texas at Arlington
Dara M. Newton, The University of Texas at Arlington
Joy Holekamp, The University of Texas at Arlington

| T4 | 30098 | **PeopleSoft Grants & Projects Roadmap Beyond 9.1: You Ask, Oracle Delivers** | **Grants, Contracts and Billing - Oracle Vision** | **PS 9.1** | **Presidential Chamber B** |

If you thought the PeopleSoft Grants and Projects suite of applications would get "stale", think again! This year, you'll see the benefits of the heavy investment we at Oracle are making in user productivity, application configurability, and analytics to help you manage projects, awards, data, and processes effectively. We'll go behind the scenes on topics like the Contracts Workbench, Work Centers, Supplemental Data, the next wave of project and grant analytics, the second phase of PeopleSoft Projects integration to Primavera P6, Forms & Approval Builder, the Transaction Order Template for Limits, mobile capabilities, and a host of other template-driven tools that you have requested and we have delivered this past year and are continuing to deliver in the year ahead. If you've attended the roadmap session in the past, entered an Issue through the HEUG Grants Issue Tracker, or participated in a customer advisory board, we think you'll leave the session convinced that the Oracle team not only listens but also delivers.
Mark Rosenberg, Oracle
Melanie Stapelman, Oracle

| T4 | 30323 | **Payroll and Benefits on Rye - It's a Calc Sandwich** | **HRMS - Case Study** | **PS 9.0** | **Jackson E** |

The University of Arizona addressed challenges common in education, such as premiums for academic pay employees and caps on earnings-based deductions, through a custom benefit premium calculation process.
Jackie Faine, University of Arizona

| T4 | 30480 | **PeopleSoft Human Capital Management (HCM) 9.1 - Compensation and Total Rewards Statement** | **HRMS - Oracle Vision** | **PS 9.1** | **Lincoln A** |

In this session, you will learn how to use PeopleSoft HCM to configure, personalize, and distribute to your employees a Total Rewards Statement that provides them with a complete view of their total compensation and benefits. Understanding this total amount allows employees to grasp the true value of their position within the organization which is an important factor in improving employee morale and productivity, retaining talented employees, and indirectly attracting new talent through employee referrals.
Tracy Martin, Oracle

| T4 | 30439 | **HCM and CS, living apart but still friends** | **HRMS - Tips and Tricks** | **PS 9.1** | **Lincoln CDE** |

Lone Star College System went live on the split HCM V9.1 and CS V9.0 databases. We will present our experience, lessons learned, how we leveraged Master Data Management, bundle application and what we believe the future holds.
Kathryn Cronin, Lone Star College System
Mike Fotta, Oracle
Susan Garland, Lone Star College System
Heart Miller, Oracle

T5	30184	ARe You Ready for This? Tools to Manage Accounts Receivable	Grants, Contracts and Billing - Case Study	PS 8.9	Presidential Chamber B

When the University of Wisconsin-Madison implemented PeopleSoft Grants 8.9 in 2008, managing A/R items was a new concept. It soon became apparent that tools were needed to manage the high volume of items that need monitoring. This session will highlight two tools have that been instrumental to A/R management in its Sponsored Programs Office.

The Award Snapshot summarizes key information from six different sources on one page with one search. Detailed billing and open A/R item information is available by drilling down on embedded links. The Award Snapshot helps staff understand which direction to go in order to close an aged A/R item by seeing a comprehensive Post Award view of the award.

A customized Aging Table that features the ability to assign A/R items to staff members, predefined statuses, and follow-up dates will also be presented. The Aging Table is automatically populated and updated by A/R activity posted in PeopleSoft. Notes or status changes entered in the Aging table trigger an e-mail to the designated contact. Custom reports can be generated from the Aging using many filtering options.

Learn how these tools were developed and how they are used to troubleshoot and manage open receivables at UW Madison!

Join us for an informative session on how you can leverage the Oracle assets to work with your PeopleSoft Financials to provide high value to the organizations. We will review the integration work and roadmap for PeopleSoft Financials and how this can help you reduce manual efforts, improve compliance and manage enterprise wide performance. We will walk the integration paths to Oracle assets such as Hyperion, Image and Process Management (IPM), Business Intelligence and more.
John Webb, Oracle

| T6 | 30649 | **Financial Statements - SOONER rather than later** | **General Ledger - Case Study** | **PS 9.0** | **Jackson F** |

Cash Basis financials? Accrual Basis financials? The answer is YES..., to both. But how is that possible from one accounting system? You can have it both ways by following this method of combining multiple ledgers using nVision and query tools.
Karen Smith, University of Oklahoma Health Sciences Center
Scott Stuart, University of Oklahoma Health Sciences Center

T6	30333	**Birds of a Feather**	**Grants, Contracts and Billing - Panel Discussion**	N/A	**Presidential Chamber B**

A panel discussion that opens the floor to all. We will share questions and solutions from both experienced and novice PeopleSoft users while building new networks and resources to take back home.
Susan Berry, Florida State University

T6	30391	**Beam me up PeopleSoft! Using PSHP_TXN for Mass Transport to Starship Paylines**	**HRMS - Innovations**	PS 9.0	**Jackson A**

I'm an analyst, not a developer… Learn how FSU beams in their earnings, benefits, and tax overrides and additions into the cloaked PSHUP_TXN table and uses a delivered process to transport into paylines. Our Benefits and Payroll staff no longer wait until paylines are open to start their data entry and have the ability to spread their work over the entire payroll. Once done all that is left to say is "Beam me up Scotty!"
Jennifer Hamilton, Florida State University

T6	30593	**Profile Management From the Ground Up**	**HRMS - Case Study**	PS 9.0	**Lincoln A**

Oracle promotes Profile Management as the foundation of its Talent Management suite. Feeling as if you're on shaky ground? Florida State University has successfully constructed efficient business processes using Profile Management. Bring your tracing paper and we will share our experiences with initial setup so that you may create a blueprint for your own organization. This session focuses on groundwork: the critical planning process needed to create an architecturally sound base for expansion. Topics include key decisions for content type setup, creative use of delivered content types to fit unique needs, early stages of profile setup and configuration, potential pitfalls in all areas, integration tips, self service eDevelopment, and as we embark on our upgrade, a summary of version 9.1 renovations.
Alyson Rome-Stepina, Florida State University

T6	30039	**AWE-Right, It's Time for a Change: Harvard's Upgrade of Time & Labor to 9.1**	**HRMS - Case Study**	PS 9.1	**Washington B**

This presentation will give a complete overview of Harvard University's upgrade to PeopleSoft Time & Labor version 9.1. It will include a background of Harvard's current (pre 9.1) setup, how and why Harvard came to decide to modify it's Time & Labor business process, incorporating the Approval Workflow Engine (AWE) and where we struggled, and finally lessons learned.
Thomas Mayhew, Harvard University

T6	30176	**Desktop Integration in Oracle E-Business Suite Release 12.1: Beyond Client ADI**	**Oracle EBS - Oracle Application**	EBS 12.1	**Ryman Studio FG**

Learn more about Web ADI and its features and functionality mapping compared with Client ADI
Gustavo Jimenez, Oracle

T6	30588	**Vendor File Integrity**	**Procurement to Pay - Tips and Tricks**	PS 9.0	**Presidential Boardroom A**

Insuring you have complete, up-to-date, and accurate vendor data for all vendors you conduct business with.

Given that the fanfare has died down about this important organizational architecture with the event of "cloud computing", what is the current state of SOA? This presentation will highlight what the industry is doing and what is "new" for organizations that have implemented SOA. This session will also cover recent SOA projects announced in Higher Education and compare them to the "current state" and a look back at prior successful implementations.
Mark Pare, Oracle

| W2 | 30086 | **Stanford University's Oracle Cash Management Implementation Experience** | **Oracle EBS - Oracle Application** | **EBS 12.1** | **Ryman Studio HI** |

Following Stanford University's Oracle e-Business Suite upgrade to R12, a full implementation of the Oracle Cash Management application was completed. Stanford took advantage of Oracle Cash Management to automate much of the manually intensive cash management process for its main cash concentration account. The bank account reconciliation process was also automated, along with introducing improved controls. Stanford replaced its manual cash position reporting process with the cash positioning capability that Oracle introduced with release 12. The implementation was accomplished using only delivered Oracle functionality. This presentation will share Stanford University's experience with Oracle Cash Management, including using new features in R12. An overview of the key configuration steps to support the implementation will also be covered.
Lauren Scott, Stanford University

W2	30059	**Audit Reporting - Providing "Clean" Data**	**Reporting and Business Intelligence - Case Study**	**PS 9.0**	**Canal E**

The University of Michigan Human Resource department has been auditing their Human Resource Management System (HRMS) data since converting to PeopleSoft in 2001. Until last year, they used a system designed as a prototype, using SQL+, SAS, and Eudora that required technical staff for ongoing support. In hopes of utilizing a production environment with less technical staff support, they decided to implement an audit process that took advantage of their upgrade to PeopleTools 8.51 and the additional PSQUERY functionality it provided, including the Process Scheduler tool (customizing them slightly). They have 100+ audit queries scheduled weekly and are developing new queries on a regular basis. They have developed a back-end process, using MS-Access, which imports the files that the Process Scheduler emails to an Outlook mailbox. The MS-Access database runs a Visual Basic script that identifies ps_queries that did not run and compiles the files into one file that is then used to research/correct data rows. UM has just rolled out workflow data entry processes for Department Budget Earnings and Additional Pay. Their new audit process better prepares them to quickly create new audit queries that will allow them to validate this data as well.
Cheri Elert, University of Michigan

Nicolas LaPlante, Universite Laval

| W3 | 30332 | **CRM 9.1 for Recruiting - Communicating with Prospective Students from Suspect to Enroll** | **CRM - Tips and Tricks** | N/A | Canal B |

The University of Northern Iowa implemented CS/CRM 9.1 creating prospects only in CRM. Discover the steps used to solve the communication challenge of combining printed mailings, email, and telesales.
Amy Schipper, University of Northern Iowa
Valerie Turner, University of Northern Iowa
Samir Awdi, CIBER

| W3 | 30392 | **Step by Step File Parser - External Awards** | **Financial Aid - Tips and Tricks** | PS 9.0 | Ryman Ballroom BC |

The basics of File Parser - External Awards will be discussed along with step-by-step directions on how to get a external file loaded using the File Parser. In addition, a school's experience in using it as well as other potential uses will be discussed.
Richard Wilson, Moody Bible Institute
Scott Cho, ioConsulting, Inc.

| W3 | 30489 | **How we automated the creation of Item Types.** | **Financial Aid - Tips and Tricks** | PS 9.0 | Ryman Studio ABC |

How we automated the creation of Item Types.
Holly Schaefer, Duke University
Tom Johnson, Duke University

| W3 | 30730 | **Achieving Cost-Savings On-Campus** | **General Interest - Vendor** | N/A | Hermitage E |

Join this session to learn how St. Petersburg College saved time, reduced spending and achieved efficiency on campus with the help of Higher One®.
Scott Verhagen, Higher One
Thomas Oliver, St. Petersburg College

| W3 | 30529 | **How we implemented a document imaging solution** | **General Interest - Tips and Tricks** | PS 8.9 | Ryman Ballroom A |

Missouri University of Science and Technology has successfully implemented a document imaging solution for admissions, records and student financial assistance and has saved time and money in the process. This session will let you know things to consider and look out for when implementing document imaging.
Jennifer Bayless, Missouri University of Science and Technology

| W3 | 30538 | **Have You Been Told To Do More With Less? Try Flow Management!** | **General Interest - Case Study** | N/A | Ryman Ballroom D |

To do more with less, UTMB technical staff restructured from business area to process flow teams. Team members have become more productive and less stressed which resulted in better customer service.
Frank Valiulis, University Of Texas Medical Branch Galveston

| W3 | 30435 | **Approaches for SF-GL reconciliation: A Panel Discussion** | **General Ledger - Panel Discussion** | PS 9.1 | Presidential Boardroom A |

We discuss challenges, architecture and different approaches to reconciliation of data between the Student Financials subsystem and General Ledger.
Carolee Cohen, University of Minnesota
Varsha Das, University of Central Florida

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM

W3 30425 Using PeopleSoft XML Publisher Reports to Generate Grants Subaward Agreement Forms

Grants, Contracts and Billing - Tips and Tricks · PS 9.0 · Presidential Chamber B

This session covers the steps required to create XML Publisher reports for Grants users. Subaward Agreement forms used by the Office of Sponsored Research at FHCRC will be used as examples to illustrate the processes involved in report creation. Session content covers end to end processes for creating XML reports, and includes useful tips, tricks, and gotchas to help along the way.
Stephanie Dennon, Fred Hutchinson Cancer Research Center

W3 30336 Profiles, Roles and Permissions, Oh My! How to strategically plan your PeopleSoft Security setup

HRMS - Tips and Tricks · PS 9.0 · Lincoln A

Functional users need to effectively communicate with their PeopleSoft security administrators. This session will introduce the terminology and help functional user plan a security strategy that can be maintained over time.
Steve Blechman, Princeton University

W3 30725 Decentralized self service hiring within higher education

HRMS - Vendor · PS 9.0 · Ryman Studio HI

With contract management being a key issue in higher education, the contract bolt-on tool helps alleviate the reduction of extensive paper flow, manual correction and HR intervention.
Tom Psihogios, Deloitte

W3 30703 Defense Against the Dark Arts - Reconciling Projects and Grants to you General Ledger

Oracle EBS - Panel Discussion · EBS 12.1 · Ryman Studio FG

Reconciling Projects and Grants to the General Ledger has long been a Dark Art, with many spreadsheets and reports to help the reconciliation. This session hope to wave a magic wand over the processes and provide you with the tools to help this complex of processes run smoother.
Matt Blandford, Liverpool John Moores University

W3 30353 Travel and Expenses – Delighting the User

Procurement to Pay - Tips and Tricks · PS 9.0 · Presidential Chamber A

After the University of Missouri performed a comprehensive benchmarking study in 2010, travel reimbursement was an area identified for process improvement. Since the University was in the middle of the implementation of PeopleSoft Travel and Expenses, the project was put on hold while significant changes to policy, approval workflow and self-service options were identified. See how our users have been delighted by simplified policies, electronic workflow, fewer approvals, faster reimbursement, and the creation of a self-service atmosphere for travel reimbursements with the implementation of PeopleSoft Travel and Expenses.
Bobbi Walker, University of Missouri System

W3 30669 Academic Structure: Getting it Right, Making it Right and Planful Thinking

Project Management & Life Cycle - Vendor · PS 9.0 · Jackson D

Discussion session geared towards decisions made relevant to an Institution's Academic Structure, not only for initial implementation purposes, but also as to overall effectiveness for the long term.
Stu Churchill-Hoyer, Oracle
Katherine Rosel, Oracle

W3 30654 Upgrading PeopleSoft On A Shoestring

Public Sector - Case Study · PS 9.1 · Jackson B

Upgrades don't have to cost an arm and leg. It is possible to upgrade on a shoestring and stay under budget. What a concept you ask. Is it really possible? Can we really stay under budget? Yes it is possible and we want to share our story on how we accomplished this. We upgraded 7 PeopleSoft Financial modules from version 8.8 to 9.1 in less than 5 months and we did it for less than $75,000 by using the remote services of a third party PeopleSoft partner.
Joe Smith, Cedar Falls Utilities

W3 30420 Using IPEDS tools for easy Benchmarking

Reporting and Business Intelligence - Tips and Tricks · N/A · Canal D

Demonstration of using the IPEDS Data Center to create a "peer" group and create a benchmarking report using the Data Feedback report. This session will also present options to archive data, including archiving within OBIEE.
Tammy Silva, University of Massachusetts-Dartmouth

W3 30592 NYU's Campus Reporting "Solution"

Reporting and Business Intelligence - Case Study · PS 9.0 · Canal E

New York University implemented PeopleSoft Campus Solutions over the course of the last academic year and was mandated to go-live with end user reporting in coordination with each module. This is a case study (and cautionary tale) detailing our varied and intensive reporting strategies; from Admissions to Student Records to Student Financials, Financial Aid as well as including Institutional Research reporting.
Andrew E. Maliszewski, New York University
Felisa Guzman, New York University

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
W3	30726	**Taking Student Analytics to the Next Level**	**Reporting and Business Intelligence - Vendor**	**PS 9.0**	**Hermitage A**

This presentation will examine some of the more advanced features of the Blackboard Analytics student data warehouse and provide a preview of additional features under development.
Steve Grantham, Blackboard Analytics

W3	30768	**Campus Solutions, HCM, Finance & K-12 Data Warehouses**	**Reporting and Business Intelligence - Vendor**	**N/A**	**Hermitage D**

In this session, we will present the latest version of our Campus Solutions, HCM, Finance & K-12 Data Warehouses based on our experience with 100 implementations.
Yiorgos Marathias, Phytorion, Inc
Ashley Silverburg, Phytorion, Inc

W3	30623	**PeopleSoft and Oracle Identity Manager in the real world of Higher Education**	**Security and Audit - Case Study**	**PS 9.0**	**Canal A**

James Madison University will discuss use of Oracle Identity Manager for provisioning PeopleSoft users and progress on the expanding the role of Identity and Access Management in the enterprise.
John Sewall, James Madison University
Alicia Gutschow, James Madison University

W3	30381	**Stale Checks and CFR 668.164 = Labor Intensive**	**Student Financials - Tips and Tricks**	**PS 9.0**	**Ryman Studio L**

Let us explain how KCTCS has attempted to provide an efficient method of complying with the updated regulations for disbursing and returning Title IV disbursements from Stale Checks and ACH returns.
Buddy Combs, Kentucky Comm. & Tech. College Sys

W3	30005	**FA Disbursement Reconciliation in SF Using PS Query & XML Publisher**	**Student Financials - Case Study**	**PS 9.0**	**Ryman Studio MNO**

I developed an App Engine process that creates 4 FA Disbursement Reports that our bursar uses for reconciliation purposes, sends out ONE Email with an attachment to four different people, and also does a calculation and posts a service indicator onto a student's account if they follow certain criteria.
Maria Lindquist, University of Wisconsin Colleges

W3	30162	**Attendance Tracking: don't let enrollment bother you!**	**Student Records - Case Study**	**PS 9.0**	**Ryman Studio DE**

This session will walk you through a nearly complete solution for attendance tracking, with everything you may need, but with the elimination of unnecessary steps, partly through smart setup decisions on delivered functionality, and partly by creating customizations, mostly bolt-on.

This solution was developed for three large community colleges in the Netherlands: Alfa-college, ROC van Twente and Noorderpoort.

Come to learn how these institutions eliminated manual maintenance of things that, with respect to pure attendance tracking, sit in the way, like enrollment, course catalog maintenance, and much, much more!
Roel Griffioen, Alfa College
Ignace Camps, Alfa College

W3	30581	**Parents wanted it - Now they have it! Parent Portal**	**Student Records - Case Study**	**PS 8.9**	**Ryman Studio PQR**

The parents of Missouri S&T students along with the other University of Missouri campuses parents wanted a method to look at their students' academic information. The Missouri system found a way to make this happen legally, effectively and with student consent.
Deanne Jackson, Missouri University of Science and Technology

W3	30531	**Role Based Access Controls: Technical Implementation**	**Technical - Innovations**	**N/A**	**Bayou A**

A technical overview of how Grant MacEwan University implemented fully automated role based access controls in PeopleSoft including the homegrown processes created to provide changed access on a nightly basis.
Victoria Lee, Grant MacEwan University
David Kimmel, Grant MacEwan University

W3	30136	**Rapid Near Production Testing Environments Made Simple**	**Technical - Case Study**	**PS 9.0**	**Bayou B**

A case study in how a small institution has utilized Oracle Database technology to easily, simply, and quickly provide a Near-Production environment for troubleshooting and final test activities across 5 PeopleSoft environments.
Dean LeVey, Hobart and William Smith Colleges

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
W3	30112	**Handle %This – Writing Effective Message Handlers**	**Technical - Case Study**	**PS 9.0**	**Bayou C**

Everyone remembers the Application Message and how we thought that was the sweetest slice of the pie. That continued to grow into the Integration Broker; it was no longer just a conduit within PeopleSoft but an exterior integrator as well. Increasingly, there is a great deal of data that needs to pass from PeopleSoft to external systems. By writing additional handlers you can tap into this readily available information. This presentation will show you how Azusa Pacific University used the delivered PERSON_BASIC_SYNC Service Operation, and by the use of a new handler processed that information into Raiser's Edge, their University Advancement and Fundraising system.
Mark Stramaglia, Azusa Pacific University
David Eggleston, CIBER

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
W3	30161	**IB - The Early Days**	**Technical - Case Study**	**PS 9.0**	**Bayou D**

This presentation will share the process of learning and experiencing Integration Broker as a new PeopleTools developer. What resources and information are helpful to get started and where to expect successes and failures while getting started.
Manraj Hallan, University of Calgary

TIME	NO.	TITLE	TRACK/SESSION	VER	ROOM
W3	30732	**Web Services in the Real World**	**Technical - Vendor**	**PS 9.0**	**Bayou E**

Technology experts from Io Consulting will offer advice and case studies on extending your PeopleSoft investment with Web Services. Topics will cover AAWS, HECH and custom applications.
Ben Santelman , ioCosulting, Inc.
Robert Stojkovic, ioConsulting, Inc.
Jeremu Sisk, ioConsulting, Inc.
